Gates, Corey

From: Ellen Cahalan [ecahalan@canyonco.org]
Sent: Tuesday, December 22, 2015 2:54 PM
To: Gates, Corey
Subject: Roland Pre-Employment

Hello Detective:

I have researched through the Sheriff's Office to see if there were any files on Cody Roland. There are no background files and no training files that they have access to.
It is our practice (Human Resources) to destroy personnel files after 10 years. If I can help in other way, please let me know.

Ellen

December 7, 2015

To Whom It May Concern:

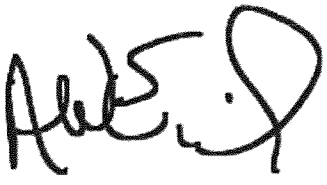

This letter is written in response to the Subpoena Duces Tecum , delivered to my office on or about December 3, 2015.

I have completed an exhaustive search for records held in my office on the person of Cody Roland and have thus far been unable to locate a personnel file for him within the walls of the Parma Police Department, having failed at that attempt. I attempted at City Hall to locate the same file again I was met with failure.

I am unable to comply with the records request as I have no knowledge of the existence of such records. Officer Roland has not been employed with the City of Parma during my tenure as Chief. The current City Clerk has only been in that position for just over a year and she also has no idea where any such record may be stored.

I apologize for any inconvenience this lack of records may cause.

Sincerely,

Albert W. Erickson
Chief of Police
City of Parma

_____

5.000 FIREARMS

5.001 PURPOSE

The purpose of this policy is to establish specifications and guidelines for approved firearms and their proper use by employees of the Department while acting in a law enforcement capacity.

5.003 AUTHORIZATION TO CARRY FIREARMS

The Department will allow the following persons to carry firearms in their official capacity:

1. All commissioned employees who have completed basic firearms training and have been certified as qualified with the weapons.
2. All Adams County Sheriff Regular Reserve Officers, while on duty as a Sheriff's Reserve Officer only, who have completed basic firearms training and have qualified with their weapon.

5.005 SERVICE WEAPONS

All weapons issued by the Department to employees, and personally owned weapons used by any employees while performing in their official capacity must conform to the specifications in this chapter.

5.007 ON DUTY WEAPON FOR UNIFORMED OFFICERS

The standard sidearm approved for use is a Glock or Smith and Wesson M&P, self-loading, (semi-automatic) full-size or mid-size pistol chambered in 9mm or .45acp caliber. All weapons must conform to the following specifications:

1. Safety: Unaltered safety system which will prevent the accidental discharge of the weapon.
2. Trigger pull: Within manufacturers tolerances;
3. Stocks: As maunfactured. Rubber type or "non-skid" stock enhancement coverings are acceptable.
4. Caliber: 9mm, .45acp; .38/.357 for revolvers

5.009 ON-DUTY WEAPON FOR PLAINCLOTHES OFFICERS

Plainclothes officers must conform to the same specifications as outlined in section 5.007.

5.011 OFF-DUTY AND SECOND ON-DUTY WEAPONS

Weapons authorized for off-duty use or use as a concealed second on-duty weapon must conform to the specifications outlined in section 5.007 and including the following:

1. Revolvers having a minimum barrel length of 2 inches and five/six chambers in the cylinder;
2. Semi-automatic pistols not less than .38 caliber.

All others are prohibited.

5.015 CONCEALABILITY OF SECOND AND OFF-DUTY WEAPON

The second or off-duty weapon shall be carried in an unobtrusive location.

5.017 USE OF SECOND WEAPON

Employees shall use the second weapon during periods of emergency or when the service weapon is impractical, not available or inoperative. Officers must qualify with every weapon that they carry.

5.019 REQUIREMENT TO QUALIFY WITH WEAPONS CARRIED

No member of the Department will carry a firearm model that the member has not qualified with. Once the member has qualified with a weapon, the make, model, caliber, and serial number will be recorded by the range officers and will be entered into the officer's training record. Only these weapons are authorized to be carried.

5.021 APPROVAL OF FIREARMS

All county owned firearms and all personally owned firearms to be used by any officer acting within the scope of official capacity must be submitted to the rangemaster or the rangemaster's designee for inspection upon request. No firearm shall be carried by any officer within the scope of official capacity unless approved by the rangemaster or designee.

5.023 ALTERATION OF FIREARMS

No officer shall cause or allow the physical or mechanical alteration of any weapon owned by Adams County with the expressed approval and inspection of the rangemaster. This section shall also apply to any personally owned weapons, if such weapons are to be used while performing official duties.

In the event of willful or obvious deficiencies, or nonconformity's with Departmental standards, the rangemaster must notify the involved member's immediate supervisor.

5.025 UNSAFE FIREARMS

Mechanically unsafe or deficient forearms shall not knowingly be carried by an officer. Any firearm discharged accidentally, due apparently to a defective safety device or other mechanical defect, shall be presumed unsafe.

5.027 MAINTENANCE OF FIREARMS

It is the responsibility of every officer to maintain all service weapons in a clean and serviceable condition at all times. Each officer must furnish his or her own firearms cleaning equipment.

5.029 SUPERVISORY RESPONSIBILITY--FIREARMS INSPECTION

It shall be the responsibility of every officer who has supervisory responsibility to inspect the weapon carried or used by officers under their immediate command. The inspection of weapons and ammunition must be conducted at least one time each calendar quarter. The supervisor will inspect for serviceability, cleanliness, and conformity to Departmental regulations. The supervisor will take appropriate measures to insure conformity to applicable regulations of the Policy Manual, and must report the findings of the inspection to the rangemaster.

5.031 REQUIRED POSSESSION

Every commissioned employee shall possess at least one approved and authorized service weapon, whether personally or county owned.

5.033 REQUIREMENT THAT OFFICER BE ARMED

All commissioned officers of the rank of lieutenant and below shall be armed with an approved service weapon during on-duty hours except when any of the following conditions apply:

1. When directed to disarm by a superior officer;
2. When involved in authorized training or activities which make the wearing of a weapon impractical or unadvisable;
3. When wearing of a weapon would violate the provisions of this Manual;
4. When involved in any situation where the wearing of a firearm would pose an increased hazard to the officer or a greater likelihood of an unsuccessful resolution to the situation;
5. Officers assigned indoor activities by their commanding officer. However, an approved service weapon shall be maintained and available for immediate use.

5.035 OFF-DUTY OFFICERS--WHEN ARMED

It is the policy of the Department to allow each commissioned officer to determine the necessity for carrying a concealed firearm while off-duty. The following will serve as such guidelines in making such determinations:

1. The anticipated activities in which they will be involved;
2. The anticipated location;
3. The reasonable probability for hazard to any person requiring their official intervention;
4. Their experience and training in handling off-duty situations;
5. Their moral responsibility to take official action in order to prevent the death or serious injury to any person by criminal means.

5.037 OFFICERS SURRENDERING WEAPON

An officer or fellow officer may be at the mercy of an armed person who has the advantage, but experience has shown that the danger to an officer is not reduced by the giving up of the weapon on demand. Surrendering of the weapon might mean giving away the only chance for survival; therefore, an officer should use every tactical ploy to avoid surrendering the weapon.

5.039 SPECIAL WEAPONS

The use of specialized weapons requires extensive training and familiarization. The peculiarities of these weapons require that their use in performing police functions be strictly controlled.

Specialized police weapons include, but are not limited to, carbines, rifles, fully automatic weapons, tear gas launchers, extended range impact devices and other type weapons which may be carried in Sheriff's vehicles by members authorized to do so. Department officers who are authorized may only carry such weapons after demonstrating proficiency and need for these weapons, and after obtaining permission from their division director and the rangemaster. Officers assigned to duties involving the use of special weapons shall be trained in their use and maintain a high proficiency. An updated and complete list of all officers qualified in the use of special weapons shall be maintained by the rangemaster. This list will be forwarded to Dispatch to facilitate emergency notifications.

5.041 SERVICE AMMUNITION

On-duty officers shall only carry ammunition as approved and/or issued by the rangemaster. Officers carrying a firearm off- duty must carry the same type and make of ammunition as approved for on-duty use. This will also apply when the ammunition is personally purchased by the officer. The following rules will apply when officers are carrying a firearm in an on-duty capacity:

1. Uniformed officers shall carry a fully loaded weapon and a a minimum of one and a maximum of two fully loaded magazines of spare ammunition.
2. Plainclothes officers shall carry a fully loaded weapon and sufficient spare ammunition to reload at least once.
3. Undercover officers are required to carry a fully loaded weapon, whether a revolver or a semi-automatic pistol.

5.043 POLICE SHOTGUNS

The authorized service shotgun of the Department shall be a .12 gauge, 2 3/4 inch chamber, pump which is required to be evaluated and approved for duty use by the rangemaster. Nonstandard or non approved shotguns shall not be used or issued for use by employees.

5.045 SERVICE SHOTGUN AMMUNITION

Standard ammunition for the police shotgun shall be .12 gauge, 2-3/4 inch, factory loaded ammunition as authorized by the rangemaster and issued by the Department. Each service police shotgun shall be carried with a loaded magazine and no round in the chamber except during actual use in a tactical situation or authorized training. The shotgun shall be made safe and the chamber cleared without undue delay after the tactical situation had been stabilized and the shotgun is returned to its position in storage.

5.047 SPECIAL PURPOSE AMMUNITION

Special purpose ammunition may be evaluated and approved for police use by the rangemaster to meet the needs of special situations.

5.049 EMERGENCY AMMUNITION AND WEAPONS

The provisions of this chapter shall not be construed to restrict the officer from the use of any other type of ammunition or weapon during times of extreme situations when service ammunition and weapons are not available, impractical or have been exhausted.

5.051 REPLACEMENT AMMUNITION

The Department will issue new service ammunition to each officer at least one time each calendar year, or as replacement of lost damaged or expended ammunition becomes necessary. Replacement ammunition will be issued under the supervision of the rangemaster.

5.053 RESTRICTIONS ON DISCHARGE OF FIREARMS

Officers shall be authorized to discharge firearms in the line of duty under the following circumstances:

1. To protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or serious bodily harm ;
2. To effect the capture or prevent the escape of a suspect whose freedom is reasonably believed to represent an imminent threat of death or serious bodily harm to the officer or other person(s);
3. During firearms training sessions as directed by the firearms instructors;
4. To kill an animal as outlined in Section 5.057.

Officers shall not discharge firearms under any of the following conditions:

1. As a warning;
2. In any misdemeanor or infraction case;
3. From, or at a moving vehicle except to protect himself/herself or others from what the officer reasonably believes to be an immediate threat of death or serious bodily harm;
4. When the discharge of the weapon may unreasonably endanger the lives of persons not involved in the commission of the crime in progress.

5.055 FIREARMS USE IN THE KILLING OF ANIMALS

The killing of animals shall be justified:

1. To prevent substantial harm to one's self or the person of another;
2. Upon supervisory authorization when the animal is so badly injured that it must be relieved from further suffering for humanitarian reasons under the following conditions:
   a) Only after the failure of all attempts to obtain expeditious assistance from an agency responsible for the disposal of animals;
   b) In the case of domesticated animals, only at the owner's request or attempts have been made to get the owner's permission;
   c) Only when the supervisor has determined that the animal can be shot without posing a hazard to persons or property;
3. When authorized by a supervisory officer in response to a request from a competent authority when the killing of the animal is necessary, and can be done without posing a hazard to persons or property.

5.100 RANGEMASTER

5.101 RANGEMASTER AND ASSISTANT RANGEMASTER RESPONSIBILITIES

The Sheriff shall serve as rangemaster. An assistant rangemaster shall be appointed by the Sheriff and shall serve until relieved by the Sheriff. The duties of the assistant rangemaster will be those assigned to him by the Sheriff, and the following:

1. Inspection and maintenance of county owned firearms and personally owned weapons that are carried on duty or off duty as a police officer;
2. Formulation and implementation of firearms and tactics training for the Department;
3. Evaluation of new and present firearms, ammunition, and all related equipment, and all related equipment, and selection of duty ammunition;
4. Budget preparation of firearms training material;

5.103 INSPECTION OF SERVICE WEAPONS

Weapons subject to inspection by the rangemaster include all authorized weapons outlined in this Manual, whether carried on duty of off duty by officers of the Department. The assistant rangemaster's responsibilities include firearms equipment inspections to insure safety, serviceability, proper functioning and conformity to departmental standards. The assistant rangemaster shall cause the following information to be collected and permanently maintained for all service weapons used by officers in the performance of their duties;

1. Make, model and caliber;
2. Serial number;
3. Ownership of the weapon;
4. Date of inspection and findings.

5.105 REPAIR OF THE SERVICE WEAPON

It shall be the responsibility of the assistant rangemaster to arrange for appropriate repair of previously inspected firearms which are found to be mechanically deficient or unsafe. This shall include county owned and personally owned service weapons.

5.107 NORMAL WEAR

Normal wear of service firearms carried by officers shall be their responsibility. Normal wear includes worn finish, damage grips, and other wear not affecting performance or safety.

5.109 EVALUATION OF WEAPONS NOT DESCRIBED

Firearms and related equipment not described in this order and not approved for departmental use may be tested and evaluated by the rangemaster for possible use as standard police equipment. Written recommendations shall be forwarded from the assistant rangemaster to the Sheriff.

5.200 FIREARMS RANGE

5.201 FIREARMS RANGE RULES

In order to provide safety and the orderly operation of the firearms range and to facilitate realistic training, the following rules will be strictly enforced on the firearms range. For the purpose of this section, the "firearms range" will include all areas on and off the firing line and from the time the person arrives until the person leaves.

1. Unload all weapons prior to entering the range area.
2. Do not load any weapon until directed by a range officer. All weapons will be unloaded at the completion of any firing course.
3. All weapons shall remain holstered except when a range officer authorizes officers to:
   a) dry fire during a preparation period,
   b) load the weapon,
   c) fire the weapon on an approved course, or
   d) unholster the weapon at the direction of a range officer.
4. Firing within the range area shall be permitted only by expressed consent of the rangemaster.
5. Only officers firing the course and firearms instructors are allowed on the firing line during the course of fire. All others will remain at the staging area.
6. Alcoholic beverages are not allowed within the range area nor shall any person come to the range under the influence of alcohol or drugs.
7. Only ammunition and weapons which are approved by the rangemaster will by used on the range.
8. Ammunition used for training shall be fired or returned. Empty brass is the property of Adams County and shall be collected.
9. All scores fired will be recorded in each officer's official training record.
10. The serial number of each weapon used in a qualification will be recorded. An officer once qualified with a weapon is then qualified to carry that specific weapon, not a similar weapon, except under exigent circumstances and under the direction of the rangemaster, and with the knowledge of the officer's immediate supervisor.
11. Ear and eye protection are to be worn by shooters and instructors during all live fire exercises.
12. When on the firing line, shooters must reload from ammunition on their person. Shooters will use the same leather/web gear and accessories on the firearms range that they carry on duty.
13. "Alibi": When ammunition will not fire. The decision to permit a reshoot is solely at the discretion of the rangemaster.
14. Officers who fire after the whistle will have five points deducted for each shot.

15. Malfunctioning weapons shall be handled according to the following procedure:
    a) Keep the weapon pointed down range;
    b) Quickly clear the weapon and fire the course. If you can't do this, then
    c) Raise a hand in a signal to an instructor, who shall either attempt to diagnose the malfunction and rectify the problem on the line, or remove both the weapon and the officer from the firing line.
16. When an officer changes firing positions, or moves from position to position on the firing line, all handguns will be placed in a hammer down, safety on condition.
17. Do not insert trigger finger inside trigger guard until weapon is pointed at target.
18. While on the firing range, firearms instructors shall exercise functional supervision over all officers regardless of rank.
19. Do not use the Idaho State Correctional Institution firearms range unless Adams County Sheriff's firearms instructor is present.

5.203 CONDUCT ON THE RANGE

All officers of any rank will follow the instructions of the rangemaster or the assistant rangemaster. Any willful or deliberate disobedience of the range rules or the rangemaster's instructions or commands will result in disciplinary action against the officer. Standard safety regulations will be strictly followed.

5.300 FIREARMS TRAINING

5.301 OBJECTIVE

The objective of the Department firearms training program is to provide each commissioned officer of the Department with a complete, comprehensive, professional firearms training and to qualify each officer with weapons he/she may be called upon to use in the line of duty. This includes not only the primary weapon, but off-duty weapons, shotguns, and any other weapons that he/she may use.

5.303 REQUIREMENTS

Every commissioned officer from the rank of lieutenant and below must attend firearms training semi-annually. Officers who have shooting deficiencies may be required to train more frequently than specified by this section.

5.305 FIREARMS QUALIFICATION REQUIREMENTS

Completion of the Department's basic firearms course will be required prior to the officer carrying a weapon. Attendance at P.O.S.T. or another similar course at another department does not necessarily satisfy this requirement. The basic firearms course will be a minimum of 8 hours of classroom training and a field training session at the firing range. The rangemaster will have the authority to allow officers with prior experience to challenge the basic firearms course after passing a written test and demonstrating to the rangemaster that the officer is thoroughly familiar with the Department's shooting policy.

All officers will be required to qualify with their primary duty weapon first. An Officer's primary duty weapon is the weapon he or she carries 51% or more of the time. Officers who wish to qualify with a second or off-duty weapon will be given the opportunity to do so at Department expense.

5.306 REQUIRED QUALIFICATIONS PER YEAR

A commissioned officer must qualify with his primary duty weapon during two quarters of the year, and must qualify with a second on-duty or off-duty weapon at least on quarter per year.

5.307 FAILURE TO QUALIFY - REMEDIAL TRAINING

Officers who attempt but fail to qualify at a regular Department shoot will shoot a second time the same day, and if they fail on the second attempt shall be required to attend a make-up shoot scheduled by the rangemaster within fourteen (14) days. Such officer will be given two opportunities to qualify on the make-up shoot. A failure on the first attempt requires an immediate second attempt on the same day. An officer who has made four attempts and has not qualified will be assigned to an instructor for individual training. These officers will be required to participate in four hours of remedial training prior to a fifth attempt at qualification. The fifth qualification attempt must be made within fourteen (14) days of the forth qualification attempt. Officers who fail to qualify on a fifth attempt will surrender any Department weapon to the instructor and will be directed not to carry any weapon on or off duty until ordered to do so by the Sheriff.

Officers who have five non-qualification attempts will be temporarily assigned to duties not requiring them to carry a weapon for thirty days. During this thirty-day period, the officer will be required to attempt to qualify again on the Department's normal qualification course. Only one attempt "for the record" will be allowed. If the officer still fails to shoot a qualifying score, he or she will be permanently reassigned with the Department. A choice in this matter lies solely with the Sheriff. Each officer must qualify with the weapon that he or she carries on duty.

5.309 MISSING FIREARMS TRAINING SESSIONS

If an officer is prevented from attending any firearms training because of duty or exigent circumstances, the officer must notify his or her immediate supervisor. If the supervisor agrees that it was not possible for the officer to attend the training, the officer's immediate supervisor will cause the officer's section commander to be notified through the chain of command. The section commander will notify the rangemaster who will provide the needed training.

Officers who miss scheduled firearms training without good cause may be subject to disciplinary action.

5.311 QUALIFICATION SCORES

For departmental purposes, the following scores shall be equal to the level of expertise indicated:

Expert	98%	294 or above		
Sharpshooter	95%	285 or above		
Marksman	90%	270	or	above

7.000 USE OF FORCE

7.001 POLICY

The Sheriff's Office recognizes that the use of force is an unavoidable part of law enforcement activities. Whenever possible, Deputy Sheriff's shall exercise the use of advice, persuasion and warning to obtain necessary compliance. Nonetheless, they shall be firm and resolute in the discharge of their duties. Whenever possible, members will maintain physical and psychological superiority, thereby increasing the likelihood of successful resolution to the situation.

Deputy Sheriff's shall only use that force which is objectively reasonable, given the facts and totality of circumstances perceived by the Deputy at the time of the event.

7.003 PURPOSE

The policy and procedures governing the use of physical force are established for the following reasons:

1. To preclude the unnecessary use of force;
2. To protect the lives and property of the public as well as members of the department
3. To establish the parameters when members have an affirmative duty to use force for the enforcement of law, and the protection of life safety.

7.005 GENERAL AUTHORIZATION

Physical force may be used in the performance of a law enforcement duty under the following circumstances:

1. When necessary to effect lawful arrest;
2. When necessary in the defense of the member's or another person's life or safety when other means have failed or are impractical.

7.009 WEAPONLESS RESTRAINTS

When practical, members shall first attempt to restrain or control a law violator who has passively resisted arrest by applying physical compliance or control techniques intended to neutralize resistance or otherwise gain compliance with member's commands. These techniques, when properly applied, are designed to overcome resistance without causing permanent or extensive injury to the suspect, while minimizing the hazard to the officer. These techniques shall never be used indiscriminately, nor shall they be used in mere anticipation of threats or violence or resistance. Additionally, the officer's response must be *proactive*, drawing upon education, training and experience, *active* within the confines of

safety and effectiveness, and *reactive* to prevent future aggressiveness on the part of the offender. Weaponless restraint techniques are appropriate when an unarmed suspect passively resists an attempt by a member to subdue or take the suspect into physical custody.

A greater degree of force may be used when the suspect is actively resisting or has attempted to, or demonstrated the intent to, assault a member or any other person.

7.010 ELECTRONIC WEAPONS

7.011 SIDE HANDLE PR-24 BATON

The side handle baton shall not be possessed and/or used.

7.013 O.C. (oleoresin capsicum) Spray

O.C. spray is not considered to be a replacement for service firearms. The proper use of O.C. is a valuable asset to the officer in overcoming actual resistance and maintaining control. It shall never be used indiscriminately, nor shall it ever be used in mere anticipation of threats of violence or resistance.

7.015 REPORTING PROCEDURE

Whenever physical force is used against any person to overcome resistance or to subdue an attacker, a description of the circumstances requiring its use shall be included in the case report and supplements. The member shall describe the type of force used against the suspect, the actions performed by the suspect indicating the need for force, and including any first aid or medical treatment given to the suspect or officers, or any offers of first aid or medical treatment which were rejected. Also included in the written report shall be a description of the suspect's injuries observed prior to the use of force and after the use of force.

If for some reason a person upon whom force was used escapes or is not taken into custody, the use of force shall be described, nevertheless, in the case report and supplements. The officer, without undue delay, shall notify the immediate supervisor of the circumstances attending the incident.

7.017 SUPERVISORY RESPONSIBILITY

Supervisory officers shall pay particular and continuing attention to their subordinates' use of force to insure that they act reasonably and follow these guidelines. Supervisors are responsible to know the level of training of subordinates to insure that the officer has received the minimum amount of training prior to carrying a weapon or using or employing the weapon or weaponless technique. Supervisory officers shall implement continuing measures to insure that improper use of force is recognized and corrected through counseling or, if necessary, disciplinary measures.

It is the responsibility of the immediate supervisor to cause a complete copy of all available reports describing officer use of force to be routed to the Division Director without delay.

7.019 RESTATEMENT OF INTENT

The department recognizes that the use of force is a legitimate, unavoidable part of the law enforcement officer's duties. It is the intent of the above procedures to establish a record of these instances so that the department can take a position

of openly acknowledging this part of the job, rather than giving the appearance of concealing it.

7.100 ESCALATION OF FORCE

7.101 PURPOSE

The purpose of this section is to further define the criteria to be used by members in determining the appropriate degree of force necessary for the accomplishment of lawful duties of their office. This section is not meant to alter the meaning of any part of section 7.000 "Use of Force" of this Manual, but rather to clarify its meaning.

7.103 GENERAL

Members shall follow the guidelines in this order in determining and implementing that degree of force which is necessary and appropriate in any given situation. Members shall evaluate the appropriateness of their intended actions in terms of the actions or omissions of the subject which justify and make the member's actions objectively reasonable. It is the responsibility of the member implementing any force technique to fully describe in writing the subject's actions or omissions which justify the escalation of force to the level implemented, as required for force reporting in section 7.015 of the Manual. Deputy Sheriff's shall only use that force which is objectively reasonable, given the facts and totality of circumstances perceived by the Deputy at the time of the event. Hindsight or facts discovered after the event that were not known at the time of the officer's actions shall not be used to determine the validity of the use of force.

It is never appropriate to invoke the use of force or the "weight of law" on any individual solely for punishment of some action or omission perceived as being a personal or emotional affront by the member. Members must remain dispassionate and emotionally uninvolved during official situations as benefits their position as an executive officer for the State of Idaho.

7.105 DEFINITION

For the purposes of this order, objectively reasonable shall include the entire spectrum of a member's actions from the point of initial contact with a subject to the termination of contact with the subject. The point of initial contact is defined as the member's earliest opportunity to personally communicate with the subject, whether such communication is visual, verbal, or written.

7.107 SUPERVISORY RESPONSIBILITY

It shall be the responsibility of every supervisory and command officer to insure that subordinates assigned to them are familiar with and follow the guidelines established in Section 7.017 of this Manual.

7.109 LEVEL OF FORCE

A member may use any level of force without progressing step by step through any lower level, provided that said level of force is objectively reasonable. It is the member's duty and responsibility to obtain control of the suspect and de-escalate as soon as practical.

7.113 EXTREME SITUATIONS

In the stress of emergency situations involving the immediate necessity for the member's self defense or defense of the safety of another, where established departmental force techniques or equipment are not reasonably available or are obviously impractical, the member may implement nonstandard force techniques in the minimum degree necessary to overcome resistance or exercise control over the subject. Nonstandard force techniques implemented under these circumstances must be objectively reasonable, and shall be abandoned by the member at the earliest opportunity to return to the use of approved standard force techniques as established in this Manual.

7.300 NON-PHYSICAL TECHNIQUES.

7.301 POLICY

It shall be policy of the Department that officers shall employ to the maximum practical extent the use of non-physical techniques, as described in this section, to encourage and secure the voluntary compliance of persons they confront in a official capacity, and to promote a positive Department image within the community.

7.303 OBJECTIVES OF NON-PHYSICAL TECHNIQUES

The first objective of the use of non-physical techniques shall be to secure the voluntary compliance of persons encountered in confrontation situations. Additionally, through the proper use of these techniques, officers can expect to maximize their efficiency by:

1. Securing the respect and support of the public;
2. Effecting more "guilty" pleas;
3. Developing more information sources;
4. Minimizing the potential for injury to the officer and the officer's equipment;
5. Programming the subject to be less hostile toward the next officer encountered;
6. Minimizing citizen complaints and the internal resources needed to investigate them;
7. Having the greatest potential for ultimately changing the undesirable behavior of law violators.

7.305 TECHNIQUES SPECIFIED

Non-physical techniques shall constitute the lowest levels of force in the concept of escalation (see Section 7.115 "Force Escalation Levels Established"), and shall be used in a manner consistent with that concept. The following descriptions represent the official levels of non-physical force:

1. Advisory: Advisory techniques are intended to gain the voluntary compliance of persons through an appeal, whether expressed or implied, to the individual that voluntary compliance is in his or her best interest. Examples of advisory techniques include: silent statements of authority accomplished by the visible presence of the officer, and the use of conversation, advice, persuasion, and warning;
2. Command: Command techniques are intended to gain the voluntary compliance of persons through the exercise of the officer's authority and include any visual or verbal communication which constitutes a lawful command. Examples of command techniques include hand or light signals used in traffic control and enforcement, and verbal orders.

7.307 PSYCHOLOGICAL BARRIERS

Voluntary compliance may be inhibited by any of a variety of conditions which are perceived to exist by an individual. The officer's best chance of securing a person's voluntary compliance is by identifying and minimizing the obstacles which exist in the mind of the person dealt with. Typical adverse conditions and human tendencies which may exist in an adversarial confrontation include:

1. Emotional states of being which may interfere with rational thinking;
2. The natural tendency to react to a perceived threat with defensive or hostile behavior;
3. Inadequate communication which tends to promote misunderstanding, distrust and over-reaction;
4. A human tendency to belittle or attempt to discredit someone perceived as an adversary;
5. Irrationality bought on by the influence of alcohol or drugs.

7.309 HUMAN RELATIONS TECHNIQUES

The recommendations of this section are not intended to be conclusive or binding in nature, but indicative of the manner in which the officer should attempt to implement non-physical techniques. The officer shall determine the appropriate application of these or similar techniques based upon the nature of the situation, the officer's assessment of any psychological barriers to voluntary compliance and the officer's estimation of the best way to accomplish the objectives of safety and security.

1. The officer should maintain psychological superiority through the advantage of numbers as well as professional appearance and demeanor.
2. If safe and preactical, the officer should attempt to reduce the threat perceived by the suspect.
3. The officer should employ a proactive rather than reactive manner in dealing with a subject. A proactive approach involves an analysis of the situation and the development and implementation of a a plan to minimize hostility.
4. The officer should attempt to de-personalize the situation by emphasizing that the action taken is not a personal affront between individuals, but rather that it is necessary action on an official level.
5. The officer should allow the subject to retain a basic human dignity by affording basic courtesies and using respectful titles (Mr. or Mrs.) This approach will minimize any appearance of heavy handedness, unfairness, or a motive to punish on the part of the officer.
6. The officer should create an atmosphere conducive to good two-way communication. The objective of good communication in this case is to facilitate common understanding; thereby eliminating fear of the unknown and misunderstanding of the officer's intent.
7. The officer should create an atmosphere in which the hostile or emotional individual can calm down. The officer may be able to accomplish this by asking questions, diverting the individual's attention to a different topic, or allowing the person to explain his or her side of the story.
8. The officer should be aware of non-verbal communication to the subject to insure that "body language," and treatment of the subject's "body space" is consistent with the officer's verbal message.

These recommendations are not intended to prevent the officer from using more aggressive techniques when necessary.

7.400 DEADLY FORCE

7.401 AUTHORIZATION TO USE DEADLY FORCE

An officer may use deadly force to protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or critical bodily harm.

An officer may use deadly force to effect the capture of or prevent the escape of a felony suspect whose freedom is reasonably believed to represent an imminent threat of grave bodily harm or death to the officer or another person or persons.

The following guidelines apply to escapes or attempted escapes from the Adams County Jail:

1. The inmate has been charged or arrested on a charge involving a violent crime.
2. There exists objectively reasonable cause to believe the continued liberty of the inmate would represent an imminent threat of grave bodily harm or death to the officer or another.
3 For escape situations or escapees who do not meet the first two situations outlined above, force of a lesser degree than deadly force shall be used.

7.403 NECESSARY ACTION

The officer does not necessarily intend to kill the offender, but employs deadly force when it reasonably appears necessary to prevent the individual from completing the action being attempted. When deadly force is used by an officer, it must be realized the death of some person might occur, not necessarily that the officer intends that death will be the result. All human life is held in the highest sanctity. That fact notwithstanding, it is our sworn duty and obligation to provide the greatest possible protection to law abiding citizens. Understanding that fact, the Department's safety priorities are as follows:

1 Hostages/Victims

2 Innocent bystanders/uninvolved citizens

3 Law enforcement officers

4 Offenders/Subjects (the person(s) who is/are the focus/cause of the law enforcement operation)

7.405 EXTREME SITUATIONS

In the extreme stress of deadly force situation, an officer may not have the opportunity or ability to utilize commonly accepted police procedures and equipment. To require an officer to do so in every instance could increase the risk of harm to the officer or others.

This order is not to be construed to restrict the officer from employing any means at the officer's disposal in an effort to successfully overcome deadly force or the imminent threat of deadly force against the officer or any person.

7.407 JUSTIFICATION FOR THE USE OF DEADLY FORCE

Justification for the use of deadly force shall be limited to what reasonably appears to be the facts known or perceived by an officer at the time he or she decides to use such force. Facts unknown to an officer, no matter how compelling, shall not be considered in later determining whether the use of deadly force was justified.

7.408 HOSTAGE SITUATION GUIDELINE

Based upon the safety priorities established under section 7.403 Necessary Action, the criteria established for determining deadly force utilization against a hostage taker are as follows:

1 Does the suspect, in fact, have a hostage?

2 Does the suspect indicate or state that he/she will seriously harm or kill the hostage?

3 Can the fact that the suspect is armed with a deadly weapon (gun, knife, bomb, etc) or has the potential for seriously harming or killing hostages (for example, dropping a child from a third story window) be, within reason, verified?

If the **suspect has hostages**, indicates in some way that he/she **will seriously harm or kill** one or more of them, and **has the means** to do so, then the criteria are established. This means that if an opportunity develops to resolve the incident by the use of deadly force, the decision shall be made based upon the priority list established in section 7.403 regardless of the time line of the incident. Decisions shall be made in the interest of the **first priority** (hostages/victims), with consideration given to innocent bystanders, officers' lives, and the life of the suspect.

7.409 REPORTING PROCEDURE

Whenever deadly force is used against any person by a member of the department, a complete description of the circumstances shall be included in the case report and supplements, together with appropriate witness statements.

7.411 SUPERVISORY NOTIFICATION

In all cases where deadly force is used by the officer, whether this force results in the death or serious injury to another person or not, the supervisor shall cause immediate notification of the Sheriff and the involved member's supervisor.

7.500 INVESTIGATION OF FIREARMS DISCHARGE

7.501 APPLICATION

The following procedures will be used to investigate every officer-involved shooting as defined in the paragraph titled, "Tactical Shooting Defined," or other deadly force incident where deadly force is used by or upon a department member.

7.505 TACTICAL SHOOTING DEFINED

A tactical shooting is an incident wherein an officer, either on or off duty, becomes involved in a law enforcement situation and discharges a firearm to protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or critical bodily harm.

7.509 INVOLVED OFFICER RESPONSIBILITIES

Whenever a member becomes involved in a tactical shooting or deadly force incident, he shall, as soon as practical:

1. Notify Dispatch of the incident and location.
2. Request the response of a supervisor.
3. Determine the physical condition of any injured person and tender first aid when appropriate.
4. Protect the scene until arrival of other officers.
5. The officer involved shall holster or secure the fired weapon(s). Once secured, weapons shall not be handled or examined except by a supervisor or investigator.
6. The involved officer shall brief the first supervisor at the scene, then refrain from discussing the incident with anyone pending the arrival of the Sheriff or assigned investigator.

7.511 PATROL SUPERVISORY RESPONSIBILITY

The Patrol Section supervisor shall:

1. Proceed immediately to the scene.
2. Assess and insure that the scene is secure
3. Insure that notifications and briefings are made to:
   a) The Sheriff and /or Under Sheriff
   b) The Field Operations Division Director
   c) The Department's legal advisor (Prosecuting Attorney).
4. Assign a non-involved officer or the Chaplain (support officer) to accompany the involved officer to a nearby secure location pending the arrival of the Sheriff or Captain. If the officer involved is injured, the support officer shall accompany him to the hospital. If possible, the injured officer should be taken to a different hospital than the injured citizen or suspect.
5. If the involved officer is injured, assign an officer to personally notify the spouse, stay with and provide transportation or other assistance. This notification shall not be made by telephone.
6. Assign an officer to secure and transport the suspect to an interview room located in the Law Enforcement Building, pending the arrival of the investigator. He shall not question or Mirandize the suspect, but should observe his actions and record and document all spontaneous statements made by the suspect. If a suspect is injured, the officer shall accompany him to the hospital. He shall make an attempt to secure any useful evidence.
7. Assign personnel to locate and maintain any immediate witnesses at the scene. The witnesses shall be instructed to not discuss the incident between themselves, pending the arrival of the investigator.
8. Assign other officers as necessary.
9. Complete an appropriate written report.

7.513 INVESTIGATIVE RESPONSIBILITIES

It shall be the responsibility of the Sheriff, Captain, or Lieutenant to investigate all tactical shootings and deadly force incidents until the Department of Law Enforcement, Bureau of Investigations arrives. The scope of the investigations will be limited to facts and evidence that will determine:

1. Criminal law violations committed by the citizen(s)/suspect(s).
2. Criminal law violations committed by the involved officer(s).
3. Legally justified actions committed by either the officer(s) or citizens(s)

A detailed report will be submitted to:

1. The Sheriff.
2. The Prosecuting Attorney.
3. Department of Law Enforcement, Bureau of Investigations
4. Others as designated.

The Sheriff shall:

1. Assume control of the scene and assign investigators.
2. Coordinate with the Incident Commander, investigators, special investigators, coroner, prosecutor, etc.
3. Insure the appropriate handling of the involved officer, witnesses and suspect with the Incident Commander.
4. Assume function command for the criminal investigation.

The Sheriff or Assigned Officer shall:

1. Conduct appropriate crime scene investigation.
2. interview all involved participants:
   a) civilian witness(es).
   b) Officer(s) with knowledge
   c) suspects.
3. Interview the involved officer. Reasonable time shall be allowed for preparation for the interview.

7.517 MIRANDA

The same guidelines shall exist in officer-involved shootings and deadly force incidents as in any other investigation. Generally, police officers or private citizens will not be advised of their constitutional rights unless they are in custody.

7.519 ASSIGNMENT OF THE OFFICER

The Sheriff or his designee shall determine the appropriate course of action regarding the assignment of involved officers.

If placed on "administrative leave" the officer shall remain available at all times for official departmental interviews and statements regarding the shooting incident, and shall be subject to recall for duty at any time.

Upon returning to duty, the officer may be assigned to "administrative duty" for a period of time as deemed appropriate by the Sheriff.

7.521 PSYCHOLOGICAL DEBRIEFING

In cases where any person has been injured or killed as a result of firearms discharged by a police officer, or killed by other means, the involved officer's shall be required to undergo a debriefing with the Department appointed psychologist. The purpose of this debriefing with the will be to allow the officer to express his feelings and to deal with the moral, ethical, and/or psychological after-effects of a shooting incident. Involved officers may also be directed to talk with other officers who have been involved in shooting situations.

7.523 REFERENCE TO MEMBER INVOLVED

In reports and statements concerning member-involved shootings, no reference shall be made to the member as a

5.000 FIREARMS

5.001 PURPOSE

The purpose of this policy is to establish specifications and guidelines for approved firearms and their proper use by employees of the Department while acting in a law enforcement capacity.

5.003 AUTHORIZATION TO CARRY FIREARMS

The Department will allow the following persons to carry firearms in their official capacity:

1. All commissioned employees who have completed basic firearms training and have been certified as qualified with the weapons.
2. All Adams County Sheriff Regular Reserve Officers, while on duty as a Sheriff's Reserve Officer only, who have completed basic firearms training and have qualified with their weapon.

5.005 SERVICE WEAPONS

All weapons issued by the Department to employees, and personally owned weapons used by any employees while performing in their official capacity must conform to the specifications in this chapter.

5.007 ON DUTY WEAPON FOR UNIFORMED OFFICERS

The standard sidearm approved for use is a Glock or Smith and Wesson M&P, self-loading, (semi-automatic) full-size or mid-size pistol chambered in 9mm or .45acp caliber. All weapons must conform to the following specifications:

1. Safety: Unaltered safety system which will prevent the accidental discharge of the weapon.
2. Trigger pull: Within manufacturers tolerances;
3. Stocks: As maunfactured. Rubber type or "non-skid" stock enhancement coverings are acceptable.
4. Caliber: 9mm, .45acp; .38/.357 for revolvers

5.009 ON-DUTY WEAPON FOR PLAINCLOTHES OFFICERS

Plainclothes officers must conform to the same specifications as outlined in section 5.007.

5.011 OFF-DUTY AND SECOND ON-DUTY WEAPONS

Weapons authorized for off-duty use or use as a concealed second on-duty weapon must conform to the specifications outlined in section 5.007 and including the following:

1. Revolvers having a minimum barrel length of 2 inches and five/six chambers in the cylinder;
2. Semi-automatic pistols not less than .38 caliber.

All others are prohibited.

5.015 CONCEALABILITY OF SECOND AND OFF-DUTY WEAPON

The second or off-duty weapon shall be carried in an unobtrusive location.

5.017 USE OF SECOND WEAPON

Employees shall use the second weapon during periods of emergency or when the service weapon is impractical, not available or inoperative. Officers must qualify with every weapon that they carry.

5.019 REQUIREMENT TO QUALIFY WITH WEAPONS CARRIED

No member of the Department will carry a firearm model that the member has not qualified with. Once the member has qualified with a weapon, the make, model, caliber, and serial number will be recorded by the range officers and will be entered into the officer's training record. Only these weapons are authorized to be carried.

5.021 APPROVAL OF FIREARMS

All county owned firearms and all personally owned firearms to be used by any officer acting within the scope of official capacity must be submitted to the rangemaster or the rangemaster's designee for inspection upon request. No firearm shall be carried by any officer within the scope of official capacity unless approved by the rangemaster or designee.

5.023 ALTERATION OF FIREARMS

No officer shall cause or allow the physical or mechanical alteration of any weapon owned by Adams County with the expressed approval and inspection of the rangemaster. This section shall also apply to any personally owned weapons, if such weapons are to be used while performing official duties.

In the event of willful or obvious deficiencies, or nonconformity's with Departmental standards, the rangemaster must notify the involved member's immediate supervisor.

5.025 UNSAFE FIREARMS

Mechanically unsafe or deficient forearms shall not knowingly be carried by an officer. Any firearm discharged accidentally, due apparently to a defective safety device or other mechanical defect, shall be presumed unsafe.

5.027 MAINTENANCE OF FIREARMS

It is the responsibility of every officer to maintain all service weapons in a clean and serviceable condition at all times. Each officer must furnish his or her own firearms cleaning equipment.

5.029 SUPERVISORY RESPONSIBILITY--FIREARMS INSPECTION

It shall be the responsibility of every officer who has supervisory responsibility to inspect the weapon carried or used by officers under their immediate command. The inspection of weapons and ammunition must be conducted at least one time each calendar quarter. The supervisor will inspect for serviceability, cleanliness, and conformity to Departmental regulations. The supervisor will take appropriate measures to insure conformity to applicable regulations of the Policy Manual, and must report the findings of the inspection to the rangemaster.

5.031 REQUIRED POSSESSION

Every commissioned employee shall possess at least one approved and authorized service weapon, whether personally or county owned.

5.033 REQUIREMENT THAT OFFICER BE ARMED

All commissioned officers of the rank of lieutenant and below shall be armed with an approved service weapon during on-duty hours except when any of the following conditions apply:

1. When directed to disarm by a superior officer;
2. When involved in authorized training or activities which make the wearing of a weapon impractical or unadvisable;
3. When wearing of a weapon would violate the provisions of this Manual;
4. When involved in any situation where the wearing of a firearm would pose an increased hazard to the officer or a greater likelihood of an unsuccessful resolution to the situation;
5. Officers assigned indoor activities by their commanding officer. However, an approved service weapon shall be maintained and available for immediate use.

5.035 OFF-DUTY OFFICERS--WHEN ARMED

It is the policy of the Department to allow each commissioned officer to determine the necessity for carrying a concealed firearm while off-duty. The following will serve as such guidelines in making such determinations:

1. The anticipated activities in which they will be involved;
2. The anticipated location;
3. The reasonable probability for hazard to any person requiring their official intervention;
4. Their experience and training in handling off-duty situations;
5. Their moral responsibility to take official action in order to prevent the death or serious injury to any person by criminal means.

5.037 OFFICERS SURRENDERING WEAPON

An officer or fellow officer may be at the mercy of an armed person who has the advantage, but experience has shown that the danger to an officer is not reduced by the giving up of the weapon on demand. Surrendering of the weapon might mean giving away the only chance for survival; therefore, an officer should use every tactical ploy to avoid surrendering the weapon.

5.039 SPECIAL WEAPONS

The use of specialized weapons requires extensive training and familiarization. The peculiarities of these weapons require that their use in performing police functions be strictly controlled.

Specialized police weapons include, but are not limited to, carbines, rifles, fully automatic weapons, tear gas launchers, extended range impact devices and other type weapons which may be carried in Sheriff's vehicles by members authorized to do so. Department officers who are authorized may only carry such weapons after demonstrating proficiency and need for these weapons, and after obtaining permission from their division director and the rangemaster. Officers assigned to duties involving the use of special weapons shall be trained in their use and maintain a high proficiency. An updated and complete list of all officers qualified in the use of special weapons shall be maintained by the rangemaster. This list will be forwarded to Dispatch to facilitate emergency notifications.

5.041 SERVICE AMMUNITION

On-duty officers shall only carry ammunition as approved and/or issued by the rangemaster. Officers carrying a firearm off- duty must carry the same type and make of ammunition as approved for on-duty use. This will also apply when the ammunition is personally purchased by the officer. The following rules will apply when officers are carrying a firearm in an on-duty capacity:

1. Uniformed officers shall carry a fully loaded weapon and a a minimum of one and a maximum of two fully loaded magazines of spare ammunition.
2. Plainclothes officers shall carry a fully loaded weapon and sufficient spare ammunition to reload at least once.
3. Undercover officers are required to carry a fully loaded weapon, whether a revolver or a semi-automatic pistol.

5.043 POLICE SHOTGUNS

The authorized service shotgun of the Department shall be a .12 gauge, 2 3/4 inch chamber, pump which is required to be evaluated and approved for duty use by the rangemaster. Nonstandard or non approved shotguns shall not be used or issued for use by employees.

5.045 SERVICE SHOTGUN AMMUNITION

Standard ammunition for the police shotgun shall be .12 gauge, 2-3/4 inch, factory loaded ammunition as authorized by the rangemaster and issued by the Department. Each service police shotgun shall be carried with a loaded magazine and no round in the chamber except during actual use in a tactical situation or authorized training. The shotgun shall be made safe and the chamber cleared without undue delay after the tactical situation had been stabilized and the shotgun is returned to its position in storage.

5.047 SPECIAL PURPOSE AMMUNITION

Special purpose ammunition may be evaluated and approved for police use by the rangemaster to meet the needs of special situations.

5.049 EMERGENCY AMMUNITION AND WEAPONS

The provisions of this chapter shall not be construed to restrict the officer from the use of any other type of ammunition or weapon during times of extreme situations when service ammunition and weapons are not available, impractical or have been exhausted.

5.051 REPLACEMENT AMMUNITION

The Department will issue new service ammunition to each officer at least one time each calendar year, or as replacement of lost damaged or expended ammunition becomes necessary. Replacement ammunition will be issued under the supervision of the rangemaster.

5.053 RESTRICTIONS ON DISCHARGE OF FIREARMS

Officers shall be authorized to discharge firearms in the line of duty under the following circumstances:

1. To protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or serious bodily harm ;
2. To effect the capture or prevent the escape of a suspect whose freedom is reasonably believed to represent an imminent threat of death or serious bodily harm to the officer or other person(s);
3. During firearms training sessions as directed by the firearms instructors;
4. To kill an animal as outlined in Section 5.057.

Officers shall not discharge firearms under any of the following conditions:

1. As a warning;
2. In any misdemeanor or infraction case;
3. From, or at a moving vehicle except to protect himself/herself or others from what the officer reasonably believes to be an immediate threat of death or serious bodily harm;
4. When the discharge of the weapon may unreasonably endanger the lives of persons not involved in the commission of the crime in progress.

5.055 FIREARMS USE IN THE KILLING OF ANIMALS

The killing of animals shall be justified:

1. To prevent substantial harm to one's self or the person of another;
2. Upon supervisory authorization when the animal is so badly injured that it must be relieved from further suffering for humanitarian reasons under the following conditions:
   a) Only after the failure of all attempts to obtain expeditious assistance from an agency responsible for the disposal of animals;
   b) In the case of domesticated animals, only at the owner's request or attempts have been made to get the owner's permission;
   c) Only when the supervisor has determined that the animal can be shot without posing a hazard to persons or property;
3. When authorized by a supervisory officer in response to a request from a competent authority when the killing of the animal is necessary, and can be done without posing a hazard to persons or property.

5.100 RANGEMASTER

5.101 RANGEMASTER AND ASSISTANT RANGEMASTER RESPONSIBILITIES

The Sheriff shall serve as rangemaster. An assistant rangemaster shall be appointed by the Sheriff and shall serve until relieved by the Sheriff. The duties of the assistant rangemaster will be those assigned to him by the Sheriff, and the following:

1. Inspection and maintenance of county owned firearms and personally owned weapons that are carried on duty or off duty as a police officer;
2. Formulation and implementation of firearms and tactics training for the Department;
3. Evaluation of new and present firearms, ammunition, and all related equipment, and all related equipment, and selection of duty ammunition;
4. Budget preparation of firearms training material;

5.103 INSPECTION OF SERVICE WEAPONS

Weapons subject to inspection by the rangemaster include all authorized weapons outlined in this Manual, whether carried on duty of off duty by officers of the Department. The assistant rangemaster's responsibilities include firearms equipment inspections to insure safety, serviceability, proper functioning and conformity to departmental standards. The assistant rangemaster shall cause the following information to be collected and permanently maintained for all service weapons used by officers in the performance of their duties;

1. Make, model and caliber;
2. Serial number;
3. Ownership of the weapon;
4. Date of inspection and findings.

5.105 REPAIR OF THE SERVICE WEAPON

It shall be the responsibility of the assistant rangemaster to arrange for appropriate repair of previously inspected firearms which are found to be mechanically deficient or unsafe. This shall include county owned and personally owned service weapons.

5.107 NORMAL WEAR

Normal wear of service firearms carried by officers shall be their responsibility. Normal wear includes worn finish, damage grips, and other wear not affecting performance or safety.

5.109 EVALUATION OF WEAPONS NOT DESCRIBED

Firearms and related equipment not described in this order and not approved for departmental use may be tested and evaluated by the rangemaster for possible use as standard police equipment. Written recommendations shall be forwarded from the assistant rangemaster to the Sheriff.

5.200 FIREARMS RANGE

5.201 FIREARMS RANGE RULES

In order to provide safety and the orderly operation of the firearms range and to facilitate realistic training, the following rules will be strictly enforced on the firearms range. For the purpose of this section, the "firearms range" will include all areas on and off the firing line and from the time the person arrives until the person leaves.

1. Unload all weapons prior to entering the range area.
2. Do not load any weapon until directed by a range officer. All weapons will be unloaded at the completion of any firing course.
3. All weapons shall remain holstered except when a range officer authorizes officers to:
   a) dry fire during a preparation period,
   b) load the weapon,
   c) fire the weapon on an approved course, or
   d) unholster the weapon at the direction of a range officer.
4. Firing within the range area shall be permitted only by expressed consent of the rangemaster.
5. Only officers firing the course and firearms instructors are allowed on the firing line during the course of fire. All others will remain at the staging area.
6. Alcoholic beverages are not allowed within the range area nor shall any person come to the range under the influence of alcohol or drugs.
7. Only ammunition and weapons which are approved by the rangemaster will by used on the range.
8. Ammunition used for training shall be fired or returned. Empty brass is the property of Adams County and shall be collected.
9. All scores fired will be recorded in each officer's official training record.
10. The serial number of each weapon used in a qualification will be recorded. An officer once qualified with a weapon is then qualified to carry that specific weapon, not a similar weapon, except under exigent circumstances and under the direction of the rangemaster, and with the knowledge of the officer's immediate supervisor.
11. Ear and eye protection are to be worn by shooters and instructors during all live fire exercises.
12. When on the firing line, shooters must reload from ammunition on their person. Shooters will use the same leather/web gear and accessories on the firearms range that they carry on duty.
13. "Alibi": When ammunition will not fire. The decision to permit a reshoot is solely at the discretion of the rangemaster.
14. Officers who fire after the whistle will have five points deducted for each shot.

15. Malfunctioning weapons shall be handled according to the following procedure:
    a) Keep the weapon pointed down range;
    b) Quickly clear the weapon and fire the course. If you can't do this, then
    c) Raise a hand in a signal to an instructor, who shall either attempt to diagnose the malfunction and rectify the problem on the line, or remove both the weapon and the officer from the firing line.
16. When an officer changes firing positions, or moves from position to position on the firing line, all handguns will be placed in a hammer down, safety on condition.
17. Do not insert trigger finger inside trigger guard until weapon is pointed at target.
18. While on the firing range, firearms instructors shall exercise functional supervision over all officers regardless of rank.
19. Do not use the Idaho State Correctional Institution firearms range unless Adams County Sheriff's firearms instructor is present.

5.203 CONDUCT ON THE RANGE

All officers of any rank will follow the instructions of the rangemaster or the assistant rangemaster. Any willful or deliberate disobedience of the range rules or the rangemaster's instructions or commands will result in disciplinary action against the officer. Standard safety regulations will be strictly followed.

5.300 FIREARMS TRAINING

5.301 OBJECTIVE

The objective of the Department firearms training program is to provide each commissioned officer of the Department with a complete, comprehensive, professional firearms training and to qualify each officer with weapons he/she may be called upon to use in the line of duty. This includes not only the primary weapon, but off-duty weapons, shotguns, and any other weapons that he/she may use.

5.303 REQUIREMENTS

Every commissioned officer from the rank of lieutenant and below must attend firearms training semi-annually. Officers who have shooting deficiencies may be required to train more frequently than specified by this section.

5.305 FIREARMS QUALIFICATION REQUIREMENTS

Completion of the Department's basic firearms course will be required prior to the officer carrying a weapon. Attendance at P.O.S.T. or another similar course at another department does not necessarily satisfy this requirement. The basic firearms course will be a minimum of 8 hours of classroom training and a field training session at the firing range. The rangemaster will have the authority to allow officers with prior experience to challenge the basic firearms course after passing a written test and demonstrating to the rangemaster that the officer is thoroughly familiar with the Department's shooting policy.

All officers will be required to qualify with their primary duty weapon first. An Officer's primary duty weapon is the weapon he or she carries 51% or more of the time. Officers who wish to qualify with a second or off-duty weapon will be given the opportunity to do so at Department expense.

5.306 REQUIRED QUALIFICATIONS PER YEAR

A commissioned officer must qualify with his primary duty weapon during two quarters of the year, and must qualify with a second on-duty or off-duty weapon at least on quarter per year.

5.307 FAILURE TO QUALIFY - REMEDIAL TRAINING

Officers who attempt but fail to qualify at a regular Department shoot will shoot a second time the same day, and if they fail on the second attempt shall be required to attend a make-up shoot scheduled by the rangemaster within fourteen (14) days. Such officer will be given two opportunities to qualify on the make-up shoot. A failure on the first attempt requires an immediate second attempt on the same day. An officer who has made four attempts and has not qualified will be assigned to an instructor for individual training. These officers will be required to participate in four hours of remedial training prior to a fifth attempt at qualification. The fifth qualification attempt must be made within fourteen (14) days of the forth qualification attempt. Officers who fail to qualify on a fifth attempt will surrender any Department weapon to the instructor and will be directed not to carry any weapon on or off duty until ordered to do so by the Sheriff.

Officers who have five non-qualification attempts will be temporarily assigned to duties not requiring them to carry a weapon for thirty days. During this thirty-day period, the officer will be required to attempt to qualify again on the Department's normal qualification course. Only one attempt "for the record" will be allowed. If the officer still fails to shoot a qualifying score, he or she will be permanently reassigned with the Department. A choice in this matter lies solely with the Sheriff. Each officer must qualify with the weapon that he or she carries on duty.

5.309 MISSING FIREARMS TRAINING SESSIONS

If an officer is prevented from attending any firearms training because of duty or exigent circumstances, the officer must notify his or her immediate supervisor. If the supervisor agrees that it was not possible for the officer to attend the training, the officer's immediate supervisor will cause the officer's section commander to be notified through the chain of command. The section commander will notify the rangemaster who will provide the needed training.

Officers who miss scheduled firearms training without good cause may be subject to disciplinary action.

5.311 QUALIFICATION SCORES

For departmental purposes, the following scores shall be equal to the level of expertise indicated:

Expert	98%	294 or above		
Sharpshooter	95%	285 or above		
Marksman	90%	270	or	above

7.000 USE OF FORCE

7.001 POLICY

The Sheriff's Office recognizes that the use of force is an unavoidable part of law enforcement activities. Whenever possible, Deputy Sheriff's shall exercise the use of advice, persuasion and warning to obtain necessary compliance. Nonetheless, they shall be firm and resolute in the discharge of their duties. Whenever possible, members will maintain physical and psychological superiority, thereby increasing the likelihood of successful resolution to the situation.

Deputy Sheriff's shall only use that force which is objectively reasonable, given the facts and totality of circumstances perceived by the Deputy at the time of the event.

7.003 PURPOSE

The policy and procedures governing the use of physical force are established for the following reasons:

1. To preclude the unnecessary use of force;
2. To protect the lives and property of the public as well as members of the department
3. To establish the parameters when members have an affirmative duty to use force for the enforcement of law, and the protection of life safety.

7.005 GENERAL AUTHORIZATION

Physical force may be used in the performance of a law enforcement duty under the following circumstances:

1. When necessary to effect lawful arrest;
2. When necessary in the defense of the member's or another person's life or safety when other means have failed or are impractical.

7.009 WEAPONLESS RESTRAINTS

When practical, members shall first attempt to restrain or control a law violator who has passively resisted arrest by applying physical compliance or control techniques intended to neutralize resistance or otherwise gain compliance with member's commands. These techniques, when properly applied, are designed to overcome resistance without causing permanent or extensive injury to the suspect, while minimizing the hazard to the officer. These techniques shall never be used indiscriminately, nor shall they be used in mere anticipation of threats or violence or resistance. Additionally, the officer's response must be *proactive*, drawing upon education, training and experience, *active* within the confines of

safety and effectiveness, and *reactive* to prevent future aggressiveness on the part of the offender. Weaponless restraint techniques are appropriate when an unarmed suspect passively resists an attempt by a member to subdue or take the suspect into physical custody.

A greater degree of force may be used when the suspect is actively resisting or has attempted to, or demonstrated the intent to, assault a member or any other person.

7.010 ELECTRONIC WEAPONS

7.011 SIDE HANDLE PR-24 BATON

The side handle baton shall not be possessed and/or used.

7.013 O.C. (oleoresin capsicum) Spray

O.C. spray is not considered to be a replacement for service firearms. The proper use of O.C. is a valuable asset to the officer in overcoming actual resistance and maintaining control. It shall never be used indiscriminately, nor shall it ever be used in mere anticipation of threats of violence or resistance.

7.015 REPORTING PROCEDURE

Whenever physical force is used against any person to overcome resistance or to subdue an attacker, a description of the circumstances requiring its use shall be included in the case report and supplements. The member shall describe the type of force used against the suspect, the actions performed by the suspect indicating the need for force, and including any first aid or medical treatment given to the suspect or officers, or any offers of first aid or medical treatment which were rejected. Also included in the written report shall be a description of the suspect's injuries observed prior to the use of force and after the use of force.

If for some reason a person upon whom force was used escapes or is not taken into custody, the use of force shall be described, nevertheless, in the case report and supplements. The officer, without undue delay, shall notify the immediate supervisor of the circumstances attending the incident.

7.017 SUPERVISORY RESPONSIBILITY

Supervisory officers shall pay particular and continuing attention to their subordinates' use of force to insure that they act reasonably and follow these guidelines. Supervisors are responsible to know the level of training of subordinates to insure that the officer has received the minimum amount of training prior to carrying a weapon or using or employing the weapon or weaponless technique. Supervisory officers shall implement continuing measures to insure that improper use of force is recognized and corrected through counseling or, if necessary, disciplinary measures.

It is the responsibility of the immediate supervisor to cause a complete copy of all available reports describing officer use of force to be routed to the Division Director without delay.

7.019 RESTATEMENT OF INTENT

The department recognizes that the use of force is a legitimate, unavoidable part of the law enforcement officer's duties. It is the intent of the above procedures to establish a record of these instances so that the department can take a position

of openly acknowledging this part of the job, rather than giving the appearance of concealing it.

7.100 ESCALATION OF FORCE

7.101 PURPOSE

The purpose of this section is to further define the criteria to be used by members in determining the appropriate degree of force necessary for the accomplishment of lawful duties of their office. This section is not meant to alter the meaning of any part of section 7.000 "Use of Force" of this Manual, but rather to clarify its meaning.

7.103 GENERAL

Members shall follow the guidelines in this order in determining and implementing that degree of force which is necessary and appropriate in any given situation. Members shall evaluate the appropriateness of their intended actions in terms of the actions or omissions of the subject which justify and make the member's actions objectively reasonable. It is the responsibility of the member implementing any force technique to fully describe in writing the subject's actions or omissions which justify the escalation of force to the level implemented, as required for force reporting in section 7.015 of the Manual. Deputy Sheriff's shall only use that force which is objectively reasonable, given the facts and totality of circumstances perceived by the Deputy at the time of the event. Hindsight or facts discovered after the event that were not known at the time of the officer's actions shall not be used to determine the validity of the use of force.

It is never appropriate to invoke the use of force or the "weight of law" on any individual solely for punishment of some action or omission perceived as being a personal or emotional affront by the member. Members must remain dispassionate and emotionally uninvolved during official situations as benefits their position as an executive officer for the State of Idaho.

7.105 DEFINITION

For the purposes of this order, objectively reasonable shall include the entire spectrum of a member's actions from the point of initial contact with a subject to the termination of contact with the subject. The point of initial contact is defined as the member's earliest opportunity to personally communicate with the subject, whether such communication is visual, verbal, or written.

7.107 SUPERVISORY RESPONSIBILITY

It shall be the responsibility of every supervisory and command officer to insure that subordinates assigned to them are familiar with and follow the guidelines established in Section 7.017 of this Manual.

7.109 LEVEL OF FORCE

A member may use any level of force without progressing step by step through any lower level, provided that said level of force is objectively reasonable. It is the member's duty and responsibility to obtain control of the suspect and de-escalate as soon as practical.

7.113 EXTREME SITUATIONS

In the stress of emergency situations involving the immediate necessity for the member's self defense or defense of the safety of another, where established departmental force techniques or equipment are not reasonably available or are obviously impractical, the member may implement nonstandard force techniques in the minimum degree necessary to overcome resistance or exercise control over the subject. Nonstandard force techniques implemented under these circumstances must be objectively reasonable, and shall be abandoned by the member at the earliest opportunity to return to the use of approved standard force techniques as established in this Manual.

7.300 NON-PHYSICAL TECHNIQUES.

7.301 POLICY

It shall be policy of the Department that officers shall employ to the maximum practical extent the use of non-physical techniques, as described in this section, to encourage and secure the voluntary compliance of persons they confront in a official capacity, and to promote a positive Department image within the community.

7.303 OBJECTIVES OF NON-PHYSICAL TECHNIQUES

The first objective of the use of non-physical techniques shall be to secure the voluntary compliance of persons encountered in confrontation situations. Additionally, through the proper use of these techniques, officers can expect to maximize their efficiency by:

1. Securing the respect and support of the public;
2. Effecting more "guilty" pleas;
3. Developing more information sources;
4. Minimizing the potential for injury to the officer and the officer's equipment;
5. Programming the subject to be less hostile toward the next officer encountered;
6. Minimizing citizen complaints and the internal resources needed to investigate them;
7. Having the greatest potential for ultimately changing the undesirable behavior of law violators.

7.305 TECHNIQUES SPECIFIED

Non-physical techniques shall constitute the lowest levels of force in the concept of escalation (see Section 7.115 "Force Escalation Levels Established"), and shall be used in a manner consistent with that concept. The following descriptions represent the official levels of non-physical force:

1. Advisory: Advisory techniques are intended to gain the voluntary compliance of persons through an appeal, whether expressed or implied, to the individual that voluntary compliance is in his or her best interest. Examples of advisory techniques include: silent statements of authority accomplished by the visible presence of the officer, and the use of conversation, advice, persuasion, and warning;
2. Command: Command techniques are intended to gain the voluntary compliance of persons through the exercise of the officer's authority and include any visual or verbal communication which constitutes a lawful command. Examples of command techniques include hand or light signals used in traffic control and enforcement, and verbal orders.

7.307 PSYCHOLOGICAL BARRIERS

Voluntary compliance may be inhibited by any of a variety of conditions which are perceived to exist by an individual. The officer's best chance of securing a person's voluntary compliance is by identifying and minimizing the obstacles which exist in the mind of the person dealt with. Typical adverse conditions and human tendencies which may exist in an adversarial confrontation include:

1. Emotional states of being which may interfere with rational thinking;
2. The natural tendency to react to a perceived threat with defensive or hostile behavior;
3. Inadequate communication which tends to promote misunderstanding, distrust and over-reaction;
4. A human tendency to belittle or attempt to discredit someone perceived as an adversary;
5. Irrationality bought on by the influence of alcohol or drugs.

7.309 HUMAN RELATIONS TECHNIQUES

The recommendations of this section are not intended to be conclusive or binding in nature, but indicative of the manner in which the officer should attempt to implement non-physical techniques. The officer shall determine the appropriate application of these or similar techniques based upon the nature of the situation, the officer's assessment of any psychological barriers to voluntary compliance and the officer's estimation of the best way to accomplish the objectives of safety and security.

1. The officer should maintain psychological superiority through the advantage of numbers as well as professional appearance and demeanor.
2. If safe and preactical, the officer should attempt to reduce the threat perceived by the suspect.
3. The officer should employ a proactive rather than reactive manner in dealing with a subject. A proactive approach involves an analysis of the situation and the development and implementation of a a plan to minimize hostility.
4. The officer should attempt to de-personalize the situation by emphasizing that the action taken is not a personal affront between individuals, but rather that it is necessary action on an official level.
5. The officer should allow the subject to retain a basic human dignity by affording basic courtesies and using respectful titles (Mr. or Mrs.) This approach will minimize any appearance of heavy handedness, unfairness, or a motive to punish on the part of the officer.
6. The officer should create an atmosphere conducive to good two-way communication. The objective of good communication in this case is to facilitate common understanding; thereby eliminating fear of the unknown and misunderstanding of the officer's intent.
7. The officer should create an atmosphere in which the hostile or emotional individual can calm down. The officer may be able to accomplish this by asking questions, diverting the individual's attention to a different topic, or allowing the person to explain his or her side of the story.
8. The officer should be aware of non-verbal communication to the subject to insure that "body language," and treatment of the subject's "body space" is consistent with the officer's verbal message.

These recommendations are not intended to prevent the officer from using more aggressive techniques when necessary.

7.400 DEADLY FORCE

7.401 AUTHORIZATION TO USE DEADLY FORCE

An officer may use deadly force to protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or critical bodily harm.

An officer may use deadly force to effect the capture of or prevent the escape of a felony suspect whose freedom is reasonably believed to represent an imminent threat of grave bodily harm or death to the officer or another person or persons.

The following guidelines apply to escapes or attempted escapes from the Adams County Jail:

1. The inmate has been charged or arrested on a charge involving a violent crime.
2. There exists objectively reasonable cause to believe the continued liberty of the inmate would represent an imminent threat of grave bodily harm or death to the officer or another.
3 For escape situations or escapees who do not meet the first two situations outlined above, force of a lesser degree than deadly force shall be used.

7.403 NECESSARY ACTION

The officer does not necessarily intend to kill the offender, but employs deadly force when it reasonably appears necessary to prevent the individual from completing the action being attempted. When deadly force is used by an officer, it must be realized the death of some person might occur, not necessarily that the officer intends that death will be the result. All human life is held in the highest sanctity. That fact notwithstanding, it is our sworn duty and obligation to provide the greatest possible protection to law abiding citizens. Understanding that fact, the Department's safety priorities are as follows:

1 Hostages/Victims

2 Innocent bystanders/uninvolved citizens

3 Law enforcement officers

4 Offenders/Subjects (the person(s) who is/are the focus/cause of the law enforcement operation)

7.405 EXTREME SITUATIONS

In the extreme stress of deadly force situation, an officer may not have the opportunity or ability to utilize commonly accepted police procedures and equipment. To require an officer to do so in every instance could increase the risk of harm to the officer or others.

This order is not to be construed to restrict the officer from employing any means at the officer's disposal in an effort to successfully overcome deadly force or the imminent threat of deadly force against the officer or any person.

7.407 JUSTIFICATION FOR THE USE OF DEADLY FORCE

Justification for the use of deadly force shall be limited to what reasonably appears to be the facts known or perceived by an officer at the time he or she decides to use such force. Facts unknown to an officer, no matter how compelling, shall not be considered in later determining whether the use of deadly force was justified.

7.408 HOSTAGE SITUATION GUIDELINE

Based upon the safety priorities established under section 7.403 Necessary Action, the criteria established for determining deadly force utilization against a hostage taker are as follows:

1 Does the suspect, in fact, have a hostage?

2 Does the suspect indicate or state that he/she will seriously harm or kill the hostage?

3 Can the fact that the suspect is armed with a deadly weapon (gun, knife, bomb, etc) or has the potential for seriously harming or killing hostages (for example, dropping a child from a third story window) be, within reason, verified?

If the **suspect has hostages**, indicates in some way that he/she **will seriously harm or kill** one or more of them, and **has the means** to do so, then the criteria are established. This means that if an opportunity develops to resolve the incident by the use of deadly force, the decision shall be made based upon the priority list established in section 7.403 regardless of the time line of the incident. Decisions shall be made in the interest of the **first priority** (hostages/victims), with consideration given to innocent bystanders, officers' lives, and the life of the suspect.

7.409 REPORTING PROCEDURE

Whenever deadly force is used against any person by a member of the department, a complete description of the circumstances shall be included in the case report and supplements, together with appropriate witness statements.

7.411 SUPERVISORY NOTIFICATION

In all cases where deadly force is used by the officer, whether this force results in the death or serious injury to another person or not, the supervisor shall cause immediate notification of the Sheriff and the involved member's supervisor.

7.500 INVESTIGATION OF FIREARMS DISCHARGE

7.501 APPLICATION

The following procedures will be used to investigate every officer-involved shooting as defined in the paragraph titled, "Tactical Shooting Defined," or other deadly force incident where deadly force is used by or upon a department member.

7.505 TACTICAL SHOOTING DEFINED

A tactical shooting is an incident wherein an officer, either on or off duty, becomes involved in a law enforcement situation and discharges a firearm to protect himself, herself or others from what the officer reasonably believes to be an immediate threat of death or critical bodily harm.

7.509 INVOLVED OFFICER RESPONSIBILITIES

Whenever a member becomes involved in a tactical shooting or deadly force incident, he shall, as soon as practical:

1. Notify Dispatch of the incident and location.
2. Request the response of a supervisor.
3. Determine the physical condition of any injured person and tender first aid when appropriate.
4. Protect the scene until arrival of other officers.
5. The officer involved shall holster or secure the fired weapon(s). Once secured, weapons shall not be handled or examined except by a supervisor or investigator.
6. The involved officer shall brief the first supervisor at the scene, then refrain from discussing the incident with anyone pending the arrival of the Sheriff or assigned investigator.

7.511 PATROL SUPERVISORY RESPONSIBILITY

The Patrol Section supervisor shall:

1. Proceed immediately to the scene.
2. Assess and insure that the scene is secure
3. Insure that notifications and briefings are made to:
   a) The Sheriff and /or Under Sheriff
   b) The Field Operations Division Director
   c) The Department's legal advisor (Prosecuting Attorney).
4. Assign a non-involved officer or the Chaplain (support officer) to accompany the involved officer to a nearby secure location pending the arrival of the Sheriff or Captain. If the officer involved is injured, the support officer shall accompany him to the hospital. If possible, the injured officer should be taken to a different hospital than the injured citizen or suspect.
5. If the involved officer is injured, assign an officer to personally notify the spouse, stay with and provide transportation or other assistance. This notification shall not be made by telephone.
6. Assign an officer to secure and transport the suspect to an interview room located in the Law Enforcement Building, pending the arrival of the investigator. He shall not question or Mirandize the suspect, but should observe his actions and record and document all spontaneous statements made by the suspect. If a suspect is injured, the officer shall accompany him to the hospital. He shall make an attempt to secure any useful evidence.
7. Assign personnel to locate and maintain any immediate witnesses at the scene. The witnesses shall be instructed to not discuss the incident between themselves, pending the arrival of the investigator.
8. Assign other officers as necessary.
9. Complete an appropriate written report.

7.513 INVESTIGATIVE RESPONSIBILITIES

It shall be the responsibility of the Sheriff, Captain, or Lieutenant to investigate all tactical shootings and deadly force incidents until the Department of Law Enforcement, Bureau of Investigations arrives. The scope of the investigations will be limited to facts and evidence that will determine:

1. Criminal law violations committed by the citizen(s)/suspect(s).
2. Criminal law violations committed by the involved officer(s).
3. Legally justified actions committed by either the officer(s) or citizens(s)

A detailed report will be submitted to:

1. The Sheriff.
2. The Prosecuting Attorney.
3. Department of Law Enforcement, Bureau of Investigations
4. Others as designated.

The Sheriff shall:

1. Assume control of the scene and assign investigators.
2. Coordinate with the Incident Commander, investigators, special investigators, coroner, prosecutor, etc.
3. Insure the appropriate handling of the involved officer, witnesses and suspect with the Incident Commander.
4. Assume function command for the criminal investigation.

The Sheriff or Assigned Officer shall:

1. Conduct appropriate crime scene investigation.
2. interview all involved participants:
   a) civilian witness(es).
   b) Officer(s) with knowledge
   c) suspects.
3. Interview the involved officer. Reasonable time shall be allowed for preparation for the interview.

7.517 MIRANDA

The same guidelines shall exist in officer-involved shootings and deadly force incidents as in any other investigation. Generally, police officers or private citizens will not be advised of their constitutional rights unless they are in custody.

7.519 ASSIGNMENT OF THE OFFICER

The Sheriff or his designee shall determine the appropriate course of action regarding the assignment of involved officers.

If placed on "administrative leave" the officer shall remain available at all times for official departmental interviews and statements regarding the shooting incident, and shall be subject to recall for duty at any time.

Upon returning to duty, the officer may be assigned to "administrative duty" for a period of time as deemed appropriate by the Sheriff.

7.521 PSYCHOLOGICAL DEBRIEFING

In cases where any person has been injured or killed as a result of firearms discharged by a police officer, or killed by other means, the involved officer's shall be required to undergo a debriefing with the Department appointed psychologist. The purpose of this debriefing with the will be to allow the officer to express his feelings and to deal with the moral, ethical, and/or psychological after-effects of a shooting incident. Involved officers may also be directed to talk with other officers who have been involved in shooting situations.

7.523 REFERENCE TO MEMBER INVOLVED

In reports and statements concerning member-involved shootings, no reference shall be made to the member as a

McCall Police Department
Report #1101523

Officer(s) Present & Assignment: Brian Wood- Patrol, Chief Summers- Admin, Officer Koch- Patrol

Suspect Name(s), Charge(s), Elements of Crime(s): Whaley, Rodney Thomas

Victim(s) Name(s): State

Witness(s) Name(s): N/A

Officer Narrative: On 7-6-2011 at approximately 10:08 hours I saw a silver GMC Yukon (plate # [redacted] driving west on Deinhard just east of Mission Street. I estimated the vehicle's speed to be 35 miles per hour (the speed limit is 25 miles per hour). I activated my radar which displayed 37 miles per hour.

I stopped the vehicle in the dirt parking area just east of the bridge on Deinhard.

The driver (identified by his Idaho driver's license as Rodney T Whaley) immediately got out of his vehicle and walked back toward me. For my safety, I asked Whaley three times to get back into his vehicle. He replied, "What do I look like, a crook?". I told him two more times to get into his vehicle and assured him that I was not saying that he looked like a crook. He did not go to his vehicle and told me that he resented my attitude. As I told Whaley to get back in his vehicle again he squared off to me with his fists clenched at his sides. I told him two more times to get into his vehicle (a total of eights times) and he refused. I told Whaley that he could either get back in his vehicle or I would arrest him and he said, "Okay, arrest me."

I told Whaley to turn around and I reached toward his arm. He pulled away and I gave him another opportunity to just go back to his vehicle. He refused to do so. I told Whaley that he was being detained, grabbed his left arm, and held it behind his back.

At this point, Whaley struggled to get his arm free and ignored numerous commands to put his right arm behind his back. At some point in the struggle, I told Whaley that he was under arrest (I do not recall exactly when, and the audio is unclear in a few places). This struggle lasted approximately four minutes during which Whaley made several threatening statements which included:

"If I have a heart attack here, you're fucking dead".

"You better call for help".

"You better have a lot of it" (regarding the backup I had just called for).

During the struggle, Whaley let his legs go limp, so I asked dispatch for medical assistance and eased him onto the ground. On the ground , he continued to struggle and refused to give me his right arm. I maintained control of Whaley (by holding his left arm behind his back) until Chief Summers and Officer Koch arrived and helped me handcuff him.

We immediately sat Whaley up, helped him to his feet, and sat him on a gurney brought by the paramedics.

Officer Koch inventoried the vehicle and locked it. He gave me the keys and a handgun he found in the vehicle (Whaley has a valid concealed weapons permit).

The McCall Fire Department transported Whaley to the McCall Memorial Hospital. He was treated for abrasions on his wrists and elbows (sustained while struggling on the dirt and gravel). The doctor said he had slightly elevated blood pressure, but was otherwise fine. The doctor released Whaley from the hospital

15-53036 003415

and I transported him to the Valley County Jail where I placed him in the custody of Jail staff. I cited Whaley for resisting and obstructing a peace officer under Idaho code 18-705 (cite # 23424).

I returned to the McCall Police Department and entered the pistol and vehicle keys into safekeeping.

Declaration of Probable Cause

On 7-6-2011 at approximately 10:09 hours I stopped a silver GMC SUV on Dienhard just east of the bridge for driving in excess of the posted speed limit.

The driver (identified by his Idaho driver's license as Rodney T Whaley) got out of his vehicle and walked back toward me. I told him to get back into his vehicle. Whaley refused to get into his vehicle and squared off to me. For my safety, I told Whaley he was being detained and to turn arround and put his hands behind his back. He refused.

I grabed his arm and he began to struggle.

Minutes later, with the help of two backup officers I arrested Whaley for resisting and obstructing an officer (Idaho code 18-705). After having him checked out and medically cleared at the McCall Memorial Hospital I transported him to the Valley County Jail and placed him in the custody of Jail staff.

This is a holding document only and is not intended to be a complete account of events. See my report for further details.

Affidavit in Support of Probable Cause

State of Idaho ss.
County of Valley

I, Brian Wood, being first duly sworn, state as follows:

I am the arresting officer or one of the officers involved in the arrest of the above-named arrestee and in such capacity state that I have personal knowledge of the facts upon which the arrestee was placed under arrest.

I offer this affidavit in support of a finding of probable cause for the arrest of the arrestee.

Above is my Probable Cause Declaration which was prepared in this manner which I believe to be true and correct to the best of my belief and knowledge and said declaration is incorporated herein by reference.

RECEIVED
AUG 23 2011

THE CITY CLERK, CITY OF McCALL

IN THE COUNTY OF VALLEY, IN THE STATE OF IDAHO

RODNEY T. WHALEY,

Claimant,

v.

BRIAN WOOD, and UNKNOWN OFFICER ASSISTING BRIAN WOOD McCALL POLICE DEPARTMENT, McCALL, IDAHO

and

OFFICERS JOHN AND/OR JANE DOES 1-10;

and

McCALL POLICE DEPARTMENT, McCALL, IDAHO

and

THE CITY OF McCALL

Respondents.

Case No._____

NOTICE OF CLAIM

IDAHO TORT CLAIMS ACT TITLE 6, CHAPTER 9, IDAHO CODE

15-53036 003430

CLAIM

COMES NOW the Claimant and for cause of action states the following allegations:

I. INTRODUCTION

This action arises under the First and Fourth Amendments to the United States Constitution; under federal law in 42 U.S.C. § 1983; under federal law in 28 U.S.C. § 1367; and under the Idaho Tort Claims Act in I.C. §§ 6-901, 6-902, 6-906, 6-907 for retaliation of protected speech, unreasonable search and seizure, excessive force, gross negligence, reckless, willful, and wanton conduct, and deliberate indifference.

The officer Respondents were acting in the scope of their employment as law enforcement officers in the City of McCall, Idaho, under color of state law, whereby they unlawfully used excessive force against the Claimant while the Claimant was engaged in lawful activity. The Respondents' actions caused personal injury and mental anguish to the Claimant.

II. JURISDICTION AND VENUE

1. Claimant commences this action to recover from Respondents damages for bodily injury and emotional damages, as covered by I.C. §§ 6-901, et. seq.

2. Claimant was injured by Respondents on July 6, 2011; and, one hundred eighty calendar days from July 6, 2011 falls on Monday January 2, 2012.

3. The actions complained of herein occurred in the City of McCall, Idaho, wherein all occurrences and facts took place.

III. PARTIES

4. Claimant RODNEY T. WHALEY (herein Claimant or Tom), at all times relevant to this action was a resident and citizen of Cascade, Idaho. Claimant commences this action in tort as a result of excessive force utilized against him by Respondents; and as a violation of his First and Fourth amendment rights against unreasonable search and seizure.

5. Respondent BRIAN WOOD (herein Brian Wood or Wood) was at all times during the allegation of this complaint, employed by the McCall Police Department, McCall, Idaho , Badge No. 212 as a law enforcement officer and acted under color of state law and was the reporting officer.

6. Respondent UNKNOWN OFFICER ASSISTING BRIAN WOOD (herein "Assisting Officer") was at all times during the allegation of this complaint, employed by the McCall Police Department, McCall, Idaho , Badge No. Unknown as a law enforcement officer and acted under color of state law and was the officer who assisted Respondent BRIAN WOOD in restraining Claimant.

7. Respondent JOHN AND JANE DOES were at all times during the allegation of this complaint, employed by, the McCall Police Department, McCall, Idaho as a law enforcement officer and acted under color of state law.

8. Respondent the McCall Police Department, McCall, Idaho (herein MPD), is a political subdivision of the State of Idaho, and which at all times during this action was the

employer of officers, Brian Wood and John and Jane Does.

9. Defendant the City of McCall, Idaho is a political subdivision of the State of Idaho for which the City has established or delegated to the Defendant MPD the responsibility for establishing and implementing policies, practices, procedures, and customs used by law enforcement officers employed by the City regarding the rights of citizens under the First Amendment and search and seizure practices and technique.

IV.FACTS

10. On July 6, 2011, Tom left is home in Cascade, Idaho which travel took him within the jurisdiction of the City of McCall, Idaho.

11. Tom's destination caused him to be traveling on Diennhardt Lane where the posted speed limit is thirty-five (35) mile per hour (mph).

12. That Tom looks like a frail senior citizen and wears two hearing aids. The hearing aids are readily visible for the front, side or rear direction, as they are black and silver with ear wraps, which protrude out of ear and wrap around the top of each ear.

13. Officer Brian Wood, of the City of McCall Police Department had ample time to observe Tom's physical appearance.

14. That Tom was driving his vehicle with the Idaho issued "Persons With Disabilities" license plate which clearly bore the International Accessible Symbol as shown in I.C.§ 49-410.

15. Officer Brian Wood had ample time to observe and did affirmatively observe the physical appearance of the car that Tom was driving to include the fact that vehicle had a "Persons With Disabilities" license plate with the number DT141.

15-53036 003433

16. That on July 6, 2011, Tom was 78 years of age; however, at the time of the encounter with Officer Brian Wood, he informed Officer Brian Wood that he was 80 years old.

17. Tom suffers from severe arthritis and has had two heart surgeries. Tom's physicians had informed him that his replacement valve could only last eight (8) years and that his breastplate was stapled closed so he had to be very careful in his activities. The breastplate can take up to several years to completely heal. As a result of this medical advice, Tom is careful not to physically exert himself so as not to tear the staples or cause any further damage.

18. Approximately 1000 hours on July 6, 2011, Tom noticed a McCall police car coming toward him in the opposite lane. The police car drove passed Tom, made a "U- Turn" and pulled up behind Tom.

19. When the police car drove passed him, Tom glanced at his speedometer and noticed that he was go traveling at thirty-seven (37) mph.

20. The police officer turned his lights on; Tom observed the lights and recognized that the officer wanted him to stop. Tom then drove a short distance to a lot so that he could safely pull over and comply with the officer's signaled request to pull over and stop his vehicle.

21. Tom turned his vehicle so that it was facing the road/entrance to the gravel lot and came to a stop. The police officer pulled beside Tom and Tom interpreted this move as the officer was going to tell him that there was something wrong with Tom's car.

22. The police officer moved his vehicle behind that of Tom's car.

23. Tom got out of his car and was standing behind the same when Brian Wood, the police officer, yelled at Tom to get back in his car.

24. Officer Brian Wood exited his vehicle and began to call in Tom's license plate information. Tom asked Officer Wood what he (Tom) had done, to which Officer Wood yelled at Tom to get back into Tom's car.

25. Tom inquired of the officer as to what had he done and even asked the officer if he (Tom) looked like a crook.

26. Not giving this frail senior citizen sufficient time to return to his car and obey his command, Officer Brian Wood approached Tom yelling for Tom to get back into his car and he then forcefully seized Tom by the arms, turned Tom around forcefully, and pulled Tom's arms behind his back.

27. Tom informed Officer Brian Wood that Officer Wood was hurting him.[1] Nevertheless, Officer Tom Wood slammed Tom on the hood of his police car. Officer Wood was having difficulty moving Tom's shoulders and arms behind Tom's back in the position he desired as Tom's shoulder flexibility was affected by the heart surgeries Tom had endured as well as Tom's Arthritis and his age.

28. Tom tried to brace himself for fear of falling to the ground as he was now sliding down the hood of the police vehicle. Tom was trying to hold on to the lip on the wiper area of the hood of the Police car. However, Office Brian Wood was able to manage to free Tom's hands.

29. As a result of the force and pressure that Officer Brian Wood was applying, Tom experienced difficulty breathing, lost conscientiousness and he then slid down the police vehicle to the graveled surface.

[1] A review of the tape reveals that it would be obvious to a reasonable observer, even one not having any training in law enforcement that the Tom suffered excruciating pain from the actions of Officer Brian Wood.

30. Tom next experienced intense pain and pressure in his back and chest area as he was being held to the gravel floor by Officer Brian Wood's knee or foot.[2] Tom cried out that he could not breathe and pleaded with Officer Brian Wood to call for back up, call 911, and call for an ambulance, as he could not breathe.

31. That Officer Brian Wood did call for emergency medical service which quickly arrived on scene

32. Ignoring Tom's cries of pain and statements that he [Tom] could not obey Officer Brian Wood's order, Officer Brian Wood inexplicably came to the conclusion that if Tom were still wreathing in pain, (i.e. in Officer Brian Woods interpretation, resisting), then Tom was not in pain. Officer Brian Wood commands that he Tom will comply with his orders.

33. The Assisting Officer arrives on the scene and also applies pressure to Tom and demands that Tom put his other hand out and Tom responds that he cannot do that. The officers then force Tom's hands into the position that they desired.

34. That an officer, yet to be identified specifically informed Officer Brian Wood "That you [Officer Brian Wood] are going to have a use of force issue to write up. Like to review this tape as soon as possible."

---

[2] It is important to note that after this moment, Officer Brian Wood's claim to qualified immunity under either state or federal law ceased to exist. As the Ninth Circuit has observed, "Under *Saucier*, courts "must examine first whether the [officers] violated [the plaintiff's] constitutional rights on the facts alleged and, second, if there was a violation, whether the constitutional rights were clearly established." Boyd v. Benton County, 374 F.3d 773, 778 (9th Cir. 2004) (citing Saucier v. Katz, 533 U.S. 194, 201 (2001)) (emphasis in original). ***The first step*** of the analysis is clearly alleged; the MPD officer violated Claimant's Fourth Amendment right to be free from unreasonable seizure. ***The second step*** in the analysis is clear from the Supreme Court, "[I]f the law did not put the officer on notice that his conduct would be clearly unlawful, summary judgment based on qualified immunity is appropriate." Saucier, 533 U.S. at 202. Officer Brian Wood cannot validly claim that he was not on notice that his actions against Claimant would violate Claimant's clearly stated constitutional rights. Prior case law establishes that an officer's conduct is not protected under qualified immunity if no reasonable officer could have believed that the officer's actions were unlawful or inappropriate. See Doerle v. Rutherford, 374 F.3d 1106, 1119 (9th Cir. 2001); Drummond v. City of Anaheim, 343 F.3d 1052, 1062 (9th Cir. 2003) (***Deciding that they did not need an exact prior case, the Ninth Circuit held that when officers kneel on the back and neck of an arrestee and press the weight of two officers' bodies on arrestee, especially after the arrestee cries for air, violates clearly established law, and reasonable officers would have been aware of such***).

15-53036 003436

35. That a person who identified himself to Tom as the Chief of Police at some point arrived on the scene.

36. Tom was handcuffed to a gurney and taken to St. Alphonsus Regional Medical Center, McCall, Idaho.

37. That some of the physical injuries that Tom sustained are depicted in Exhibit "A" herein.

38. That when Tom was released from the hospital, Officer Brian Wood transported Tom to Valley County Jail where Tom was taken into custody.

39. Tom was charged with a violation of I.C. §18-705, Resisting and obstructing officers.

40. After posting bond, Tom was released from custody.

41. On July 6, 2011, Tom and his wife were driven to Lewiston Idaho by their daughter. On July 7, 2011, Tom was taken by his daughter to St. Joseph's Regional Medical Center in Lewiston, Idaho.

42. While at St. Joseph's Regional Medical Center, Lewiston, Idaho, Tom was further treated for injuries that he sustained at the hands of the MPD. X-rays were taken, Tom was given oxygen and the rocks were cleaned from the injuries that he suffered on July 6, 2011. It was learned that Tom had sustained four bruised ribs and Tom's hands were swollen but not broken.

43. Tom continues to suffer from the physical injuries received as a result of his encounter with Officer Brian Wood on July 6, 2011.

44. On July 25, 2011, Tom returned to St. Alphonsus hospital in McCall where he was seen for continued shortness of breath and severely escalated blood pressure. Tom learned that he

had developed a staph infection to his thumb as a result of the treatment he received from his July 6, 2011 arrest by MPD. Additionally, Tom learned that he was suffering from pneumonia.

45. On July 28, 2011, Tom's cardiologist adjusted Tom's blood pressure, and placed Tom on Oxygen full time. Tom is still working with his cardiologist to get his blood pressure under control.

46. As a result of the arrest of July 6, 2011 by the MPD, Tom continues to seek medical assistance for the injuries received and his worsening medical condition that are directly attributable to the action of Officer Brian Wood and the unnamed Assisting Officer.

47. On August 17, 2011, the violation of I.C. §18-705, Resisting and obstructing officers dismissed and the court amended the charge to one of a violation of I.C. §49-1403 which required the payment of a $100.00 bond.

48. The case was dismissed with prejudice on August 17, 2011. *See* Exhibit "B"

V. DAMAGES

49. As a result of the foregoing, Claimant has not only suffered from the physical injuries delineated herein, Tom has also suffered emotional distress. Claimant continues to suffer from humiliation, lack of motivation, loss of joy, ill temper, anxiety, lost sleep, irritability, headaches, and a profound sense of personal violation and betrayal.

50. As a result of the foregoing, Claimant has suffered physical damages as described in ¶¶ 33, 42, 43, 44, 45, 46 and 49 herein.

51. As a result of the foregoing, Claimant has lost part of his self-respect and feeling of self-worth. Claimant, a veteran, now questions his prior respect he had for law enforcement officers.

VI. CAUSES OF ACTION

COUNT I

Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983

(General Allegations)

52. Claimant realleges and incorporates herein by reference the allegations set forth in paragraphs 1-51 of this Notice of Tort Claim as ¶ 52.

53. By the aforementioned acts and omissions committed by Respondents, the Respondents, under color of law, deprived the Claimant of his constitutionally protected right to be free from unreasonable search and seizure under the Fourth Amendment to the United States Constitution.

54. In violating the Claimant's rights as set forth above, Respondents conducted an unreasonable search and seizure of the Claimant when without cause, Respondents physically overpowered Claimant, spinning him around, pulling his arms back, and throwing Claimant to the graveled ground causing Claimant to land on his face thereby sustaining injuries to his person. These actions are the crux of Respondent's use of excessive force, in violation of Claimant's rights under the Fourth Amendment to the United States Constitution, and to 42 U.S.C. § 1983.

55. As a direct result of the violation of his constitutional right by Respondents, Claimant suffered general damages and is entitled to relief under 42 U.S.C. § 1983.

56. The Conduct of Respondents was willful, malicious, reckless and/or oppressive, and was so extreme in nature that punitive damages should be imposed in an amount commensurate with the wrongful acts alleged herein.

COUNT II

Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983

(Use of Excessive Force)

57. Claimant realleges and incorporates herein by reference the allegations set forth in paragraphs 1- 56 of this Notice of Tort Claim as ¶ 57.

58. Respondents failed to abide by constitutional practice when conducting a seizure, which led to the application of excessive force against Claimant and a violation of Claimant's right to be free from unreasonable search and seizure.

59. Aforementioned Respondents, while executing their unconstitutional seizure of Claimant, were acting under color of state law, through their employment as law enforcement officers for the McCall Police Department, Valley County, Idaho.

15-53036 003440

60. As a result of Respondents' actions, Claimant suffered physical injuries as described in ¶¶ 28, 33, 34, 35, 36, 37, and 40 herein resulting in personal embarrassment, and mental anguish in violation of 42 U.S.C. § 1983.

COUNT III

Deprivation of Constitutional Rights Under Color of State Law
Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983
(Denial of First Amendment Rights)

61. Claimant restates, incorporates and re-alleges paragraphs 1 - 60 of this Notice of Tort Claim as ¶ 61.

62. At all times material hereto, the conduct of the Respondents was subject to 42 U.S.C. § 1983 and the Respondents were acting under color of law.

63. By arresting Claimant in the manner and under the circumstances heretofore set forth in this Notice of Tort Claim, Respondents have impaired and violated Claimant's rights under the First Amendment to the United States Constitution, and Article 1, Sections 9 and 10 of the Constitution of the State of Idaho. These violations entitle Claimant to relief under Title 42, Section 1983 of the United States Code. As a direct and proximate result of the violations of Claimant's constitutional rights, Claimant suffered direct and consequential losses and damages.

COUNT IV

Idaho Tort Claims Act Pursuant to I.C. § 6-901 and all Subsequent Sections

(Reckless, Willful, and Wanton Conduct)

15-53036 003441

64. Claimant realleges and incorporates herein by reference the allegations set forth in paragraphs 1-63 of this of this Notice of Tort Claim as ¶ 64.

65. The Respondents committed reckless, willful, and wanton conduct when they intentionally applied excessive force to Claimant without lawful cause or provocation. Respondents acted intentionally and knowingly to cause unreasonable bodily harm to Claimant, which had a high degree of probability that harm, would result from Respondents' concerted actions.

66. Due to the law enforcement officer Respondents' above actions, Claimant did suffer bodily harm and great personal injury, therefore the Claimant is able to recover damages under the Idaho Tort Claims Act, and further to recover punitive damages under 42 U.S.C. § 1983.

PRAYER FOR RELIEF

WHEREFORE, Claimant prays that he be granted the following relief:

1. A finding that Respondents' conduct violated Claimant's Constitutional rights, under the Fourth Amendment to the Constitution, to be free from unreasonable search seizure.

2. A finding that Respondents' conduct violated Claimant's Constitutional rights, under the First Amendment to the Constitution, to be free from retaliation by the state from exercising his right of freedom of expression.

3. An award compensating Claimant, according to proof, for personal damages, personal expenses related to physical harm suffered at the hands of Respondents, emotional harm, mental suffering, personal embarrassment, and social embarrassment pursuant to the Idaho

15-53036 003442

Tort Claims Act under I.C. §§ 6-901, 6-902, 6-906, 6-907; and federal law under 42 U.S.C. § 1983.

4. A finding in Claimant's favor, that the Respondents stand liable to Claimant for an award of Claimant's reasonable attorneys' fees, litigation costs and other costs of this action, together with a determination of the amount of Claimant's reasonable attorneys fees taxable to the Respondents, along with a determination of the Claimant's litigation costs and expenses taxable to the Respondents, pursuant to 42 U.S.C. § 1988 for claims arising under 42 U.S.C. § 1983.

5. A finding that the Respondents' actions were so excessive, as to constitute gross negligence, and/or reckless, willful, and wanton conduct, to such a degree that punitive damages[3] are recoverable by the Claimant under 42 U.S.C. § 1983 and relief for no less than five hundred thousand dollars and zero cents[4] under Idaho code.[5]

---

[3] The Supreme Court made it clear that punitive damages may be awarded under 42 U.S.C. § 1983 when Defendants' conduct is shown to be motivated, "by evil motive or intent, or when it involves reckless or callous indifference to the federally protected rights of others." Smith v. Wade, 461 U.S. 30, 56, (1983). Other courts have found that when officers commit excessive acts of violence, as is the case herein, with no basis for such action, that the force must be reckless and with evil motive. See Lewis v. Downs, 774 F.2d 711, 715 (6th Cir. 1985) (holding that two officers were liable for punitive damages under 42 U.S.C. § 1983 when they struck a handcuffed arrestee in the face with the butt of a nightstick) (rev'd on other grounds); Clark v. Beville 730 F.2d 739, 741 (11th Cir. 1984) (stating that officer inflicted injuries to the arrestee's arm, wrist, and shoulder, which met the standard for willful and gross disregard for arrestee's rights; thus officer was liable for punitive damages).

[4] I.C. § 6-926 states:

> The combined, aggregate liability of a governmental entity and its employees for damages, costs and attorney fees under this chapter, on account of bodily or personal injury, death, or property damage, or other loss as the result of any one (1) ***occurrence or accident regardless of the number of persons injured or the number of claimants, shall not exceed and is limited to five hundred thousand dollars ($500,000), unless the governmental entity has purchased applicable, valid, collectible liability insurance coverage in excess of said limit, in which event the controlling limit shall be the remaining available proceeds of such insurance.*** If any judgment or judgments, including costs and attorney fees that may be awarded, are returned or entered, and in the aggregate total more than five hundred thousand dollars ($500,000), or the limits provided by said valid, collectible liability insurance, if any, whether in one or more cases, the court shall reduce the amount of the award or awards, verdict or verdicts, or judgment or judgments in any case or cases within its jurisdiction so as to reduce said aggregate loss to said applicable statutory limit or to the limit or limits provided by said valid, collectible insurance, if any, whichever was [is] greater. I.C. § 6-926 (Bold and italics added).

15-53036 003443

Hopefully, this matter can be resolved in a reasonable manner without the need for time consuming, unproductive, and expensive litigation in federal court. Claimant merely seeks to be compensated for the negligent, egregious, and unwarranted acts committed by the Respondents in violation of his constitutional rights. If this matter cannot be resolved through the tort claims process, as can be seen by the nature and content of this Notice of Tort Claim, Claimant is prepared to seek redress in federal court.

Respectfully Drafted and Filed after Claimant's Review

By Claimant's Attorneys,

Camacho Mendoza Coulter Law Group, PLLC

RONALDO A. COULTER

[5] The 500,000 dollar cap was set by the Idaho State Legislature, but the Legislature could not have foreseen the given the nature of the acts described herein, the 500,000 dollar maximum would be conservative compensation at best. Considering the totality of the circumstances and egregiousness of the Defendants' acts, the amount prayed for is both minimal and reasonable.

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF VALLEY

STATE OF IDAHO Plaintiff vs. RODNEY T. WHALEY Defendant	CASE NUMBER CR 2011-2011-M STIPULATED MOTION TO AMEND CHARGES AND TO FORFEIT BOND

COMES NOW, the Defendant and Carol A. Brockmann, McCall City Prosecutor and Defendant who hereby move this Honorable Court to amend the charges in the above captioned matter to the charge Offenses by Persons Owning or Controlling Vehicles, Idaho Code 49-1403, a misdemeanor. Further, the parties move by stipulated motion that a bond forfeiture under the provisions of Idaho Code 49-240 is appropriate in this case. The Defendant and the State both agree that it is in the best interest of justice for a bond of $ 100.00 to be posted, with that bond being forfeited. Under the provisions of I.C. 49-240, once the bond is posted, the case will be dismissed with prejudice and the bond shall be distributed as court costs and fines in accordance with statutory provisions.

Dated this 17th day of August 2016.

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF VALLEY

STATE OF IDAHO Plaintiff vs. RODNEY WHALEY Defendant	CASE NUMBER 2011-2011-M ORDER AMENDING CHARGE AND FOR BOND FORFEITURE

This matter was before the Court upon the Joint Motion to amend the charge to Offenses by Persons Owning or Controlling Vehicles, Idaho Code 49-1403. The Court, being fully advised of the premises therein, hereby ORDERS AND ADJUDGES the charge is amended as petitioned and the charge shall now reflect Offenses by persons Owning or Controlling Vehicles, Idaho Code Section 49-1403.

Further, by motion of the State and Defendant, and the bond of $ 100.00 having been posted with the Court, the above entitled case is HEREBY DISMISSED. The bond posted in the case shall be forfeited and distributed as though there was a conviction.

SO ORDERED THIS 17 day of August, 2011.

AO 440 (Rev. 12/09) Summons in a Civil Action

UNITED STATES DISTRICT COURT

for the

District of Idaho

Rodney T. Whaley

Plaintiff

v.

Brian Wood, City of McCall, City of McCall Police Department, et. al.

Defendant

Civil Action No. 11-577-S-EJL

SUMMONS IN A CIVIL ACTION

To: *(Defendant's name and address)* City of McCall Police Department
C/O City of McCall
Bessie Jo Wagner, City Clerk
216 East Park Street
McCall, ID 83638

A lawsuit has been filed against you.

Within 21 days after service of this summons on you (not counting the day you received it) — or 60 days if you are the United States or a United States agency, or an officer or employee of the United States described in Fed. R. Civ. P. 12 (a)(2) or (3) — you must serve on the plaintiff an answer to the attached complaint or a motion under Rule 12 of the Federal Rules of Civil Procedure. The answer or motion must be served on the plaintiff or plaintiff's attorney, whose name and address are: Ronaldo A. Coulter
Camacho Mendoza Coulter Law Group, PLLC
776 E. Riverside Drive Suite 240
Eagle, Idaho 83616

If you fail to respond, judgment by default will be entered against you for the relief demanded in the complaint. You also must file your answer or motion with the court.

RODNEY T. WHALEY,	
Plaintiff,	**Case No._____**
vs.	
BRIAN WOOD, and UNKNOWN OFFICER ASSISTING BRIAN WOOD McCALL POLICE DEPARTMENT, McCALL, IDAHO	**COMPLAINT AND DEMAND FOR JURY TRIAL** (JURY DEMAND PER F.R.C.P. 38(b))
and	**VIOLATION OF CIVIL RIGHTS PURSUANT TO 42 U.S.C. § 1983**
OFFICERS JOHN AND/OR JANE DOES 1-10;	
and	
McCALL POLICE DEPARTMENT, McCALL, IDAHO	
and	
THE CITY OF McCALL	
Defendants.	

15-53036 003464

I. COMPLAINT

Plaintiff, Rodney T. Whaley (hereinafter "Thomas" or "Plaintiff"), hereby complains against Defendants, as follows::

II. NATURE OF THE CASE

This action arises under the First and Fourth Amendments to the United States Constitution; under federal law in 42 U.S.C. § 1983; under federal law in 28 U.S.C. § 1367; and under the Idaho Tort Claims Act in I.C. §§ 6-901, 6-902, 6-906, 6-907 for retaliation of protected speech, unreasonable search and seizure, excessive force, gross negligence, reckless, willful, and wanton conduct, and deliberate indifference.

The officer Defendants were acting in the scope of their employment as law enforcement officers in the City of McCall, Idaho, under color of state law, whereby they unlawfully used excessive force against the Plaintiff while the Plaintiff was engaged in lawful activity. The Defendants' actions caused personal injury and mental anguish to the Plaintiff.

III. JURISDICTION AND VENUE

1. Plaintiff brings this action pursuant to 42 U.S.C. §1983 to redress a deprivation of civil rights under color of state law. Jurisdiction is invoked in this Court pursuant to 28 U.S.C. §§ 1331, and 1343.

2. Jurisdiction of this court for the pendent or supplemental claims is authorized by 28 U.S.C. § 1367(a) and F.R.C.P. 18(a), and arises under the doctrine of pendent jurisdiction as set forth in *United Mine Workers v. Gibbs*, 383 U.S. 715 (1966). *See also*: *DaimlerChrysler Corp. v. Cuno*, 547 U.S. 332 (2006).

15-53036 003465

3. On August 23, 2011, Plaintiff, through counsel, timely filed a Notice of Tort Claim with the City Clerk, City of McCall, Idaho wherein he maintained, among other complaints, that his rights under the under the First Amendment to the United States Constitution, his rights under the Fourth Amendment to the United States Constitution and Article I Section 13 of the Idaho Constitution had been violated and that he was harmed under the Idaho Tort Claims Act per I.C. §§ 6-901, 6-902, 6-906, 6-907 for retaliation of protected speech, unreasonable search and seizure, excessive use force, gross negligence, reckless, willful, and wanton conduct, and deliberate indifference.

4. November 21, 2011 marked the ninetieth (90th) day from day the above Notice of Tort Claim was filed. The Defendants have neither approved nor denied Plaintiff's tort claim effectively denying the same. Therefore, the claim is properly before this court per I.C. §§ 6-909 and 6-910.

5. Venue is properly set in the United States District Court for the District of Idaho pursuant to 28 U.S.C. § 1391 because the actions alleged in this complaint occurred in this District and on information and belief, all parties reside or exist in this District.[1]

IV. PARTIES

6. Plaintiff RODNEY T. WHALEY (herein Plaintiff or Tom), at all times relevant to this action was a resident and citizen of Cascade, Idaho. Plaintiff commences this action as a result of excessive force utilized against him by Defendants; and as a violation of his First and

[1] *See Monell v. Department of Social Services of City of New York*, 436 U.S. 658, 691, 98 S.Ct. 2018, 2036 (U.S.S.C., 1978) (citing *Lincoln*); and *Durning v. Citibank, N.A.*, 950 F.2d 1419, 1427-1428 (C.A.9 (Wash.), 1991) citing *Mt. Healthy City School Dist. Bd. of Educ. v. Doyle*, 429 U.S. 274, 280-281, 97 S.Ct. 568, 573 (U.S. Ohio, 1977).

15-53036 003466

Fourth amendment rights which protect against retaliation for protective speech and unreasonable search and seizure respectively.

7. Defendant BRIAN WOOD (herein Brian Wood or Wood) was at all times during the allegation of this complaint, employed by the McCall Police Department, McCall, Idaho , Badge No. 212 as a law enforcement officer and acted under color of state law and was the reporting officer.

8. Defendant UNKNOWN OFFICER ASSISTING BRIAN WOOD (herein "Assisting Officer") was at all times during the allegation of this complaint, employed by the McCall Police Department, McCall, Idaho , Badge No. Unknown as a law enforcement officer and acted under color of state law and was the officer who assisted Defendant BRIAN WOOD in restraining Plaintiff.

9. Defendant JOHN AND JANE DOES were at all times during the allegation of this complaint, employed by the McCall Police Department, McCall, Idaho as a law enforcement officer and acted under color of state law.

10. Defendants BRIAN WOOD and UNKNOWN OFFICER ASSISTING BRIAN WOOD and John and/or Jane Does are upon information and belief employees within the meaning of I.C § 6-902(4) and are being sued in both their ***representative***[2] and individual capacities.

[2] I.C § 6-903(a) is applicable:
(a) Except as otherwise provided in this act, every governmental entity is subject to liability for money damages arising out of its negligent or otherwise wrongful acts or omissions and those of its employees acting within the course and scope of their employment or duties, whether arising out of a governmental or proprietary function, where the governmental entity if a private person or entity would be liable for money damages under the laws of the state of Idaho, provided that the governmental entity is subject to liability only for the pro rata share of the total damages awarded in favor of a Plaintiff which is attributable to the negligent or otherwise wrongful acts or omissions of the governmental entity or its employees.

15-53036 003467

11. Defendant the McCall Police Department, McCall, Idaho (herein MPD), is a political subdivision of the State of Idaho, and which at all times during this action was the employer of officers, Brian Wood, the Unknown Officer Assisting Brian Wood, and John and Jane Does.

12. Defendant the City of McCall, Idaho is a political subdivision of the State of Idaho for which the City has established or delegated to the Defendant MPD the responsibility for establishing and implementing policies, practices, procedures, and customs used by law enforcement officers employed by the City regarding the rights of citizens under the First Amendment and search and seizure practices and techniques .[3]

V. STATEMENT OF FACTS

13. On July 6, 2011, Tom left is home in Cascade, Idaho which travel took him within the jurisdiction of the City of McCall, Idaho.

14. Tom's destination caused him to be traveling on Diennhardt Lane where the posted speed limit is thirty-five (35) mile per hour (mph).

[3] The United States Supreme Court made it clear in *Monell v. Dept. of Social Serv. Of the City of New York*, 436 U.S. 658, that state and local subdivisions are persons under 42 U.S.C. 1983. A municipality may be sued under 42 U.S.C. § 1983, but is not liable under a tortfeasor theory of respondeat superior. *See Monell*, 436 U.S. 658 at 694 (1978) where it was held:

> We conclude, therefore, that a local government may not be sued under § 1983 for an injury inflicted solely by its employees or agents. Instead, it is when execution of a government's policy or custom, whether made by its lawmakers or by those whose edicts or acts may fairly be said to represent official policy, inflicts the injury that the government as an entity is responsible under § 1983.

15-53036 003468

15. That Tom looks like a frail senior citizen and wears two hearing aids. The hearing aids are readily visible for the front, side or rear direction, as they are black and silver with ear wraps, which protrude out of ear and wrap around the top of each ear.

16. Officer Brian Wood, of the City of McCall Police Department had ample time to observe Tom's physical appearance.

17. That Tom was driving his vehicle with the Idaho issued "Persons With Disabilities" license plate which clearly bore the International Accessible Symbol as shown in I.C.§ 49-410.

18. Officer Brian Wood had ample time to observe and did affirmatively observe the physical appearance of the car that Tom was driving to include the fact that vehicle had a "Persons With Disabilities" license plate with the number DT141.

19. That on July 6, 2011, Tom was 78 years of age; however, at the time of the encounter with Officer Brian Wood, he informed Officer Brian Wood that he was 80 years old.

20. Tom suffers from severe arthritis and has had two heart surgeries. Tom's physicians had informed him that his replacement valve could only last eight (8) years and that his breastplate was stapled closed so he had to be very careful in his activities. The breastplate can take up to several years to completely heal. As a result of this medical advice, Tom is careful not to physically exert himself so as not to tear the staples or cause any further damage.

21. Approximately 1000 hours on July 6, 2011, Tom noticed a McCall police car coming toward him in the opposite lane. The police car drove passed Tom, made a "U- Turn" and pulled up behind Tom.

22. When the police car drove passed him, Tom glanced at his speedometer and noticed that he was traveling at thirty-seven (37) mph.

15-53036 003469

23. The police officer turned his lights on; Tom observed the lights and recognized that the officer wanted him to stop. Tom then drove a short distance to a lot so that he could safely pull over and comply with the officer's signaled request to pull over and stop his vehicle.

24. Tom turned his vehicle so that it was facing the road/entrance to the gravel lot and came to a stop. The police officer pulled beside Tom and Tom interpreted this move as the officer was going to tell him that there was something wrong with Tom's car.

25. The police officer moved his vehicle behind that of Tom's car.

26. Tom got out of his car and was standing behind the same when Brian Wood, the police officer, yelled at Tom to get back in his car.

27. Officer Brian Wood exited his vehicle and began to call in Tom's license plate information. Tom asked Officer Wood what he (Tom) had done, to which Officer Wood yelled at Tom to get back into Tom's car.

28. Tom inquired of the officer as to what had he done and even asked the officer if he (Tom) looked like a crook.

29. Not giving this frail senior citizen sufficient time to return to his car and obey his command, Officer Brian Wood approached Tom yelling for Tom to get back into his car and he then forcefully seized Tom by the arms, turned Tom around forcefully, and pulled Tom's arms behind his back.

30. Tom informed Officer Brian Wood that Officer Wood was hurting him.[4]

31. Nevertheless, Officer Tom Wood slammed Tom on the hood of his police car.

32. Officer Wood was having difficulty moving Tom's shoulders and arms behind Tom's back in the position he desired.

[4] A review of the tape reveals that it would be obvious to a reasonable observer, even one not having any training in law enforcement that the Tom suffered excruciating pain from the actions of Officer Brian Wood.

15-53036 003470

33. Tom's shoulder flexibility was affected by the heart surgeries Tom had endured as well as Tom's Arthritis and his age.

34. Tom tried to brace himself for fear of falling to the ground as he was now sliding down the hood of the police vehicle.

35. Tom was trying to hold on to the lip on the wiper area of the hood of the Police car. However, Officer Brian Wood was able to manage to free Tom's hands.

36. As a result of the force and pressure that Officer Brian Wood was applying, Tom experienced difficulty breathing, lost conscientiousness and he then slid down the police vehicle to the graveled surface.

37. Tom next experienced intense pain and pressure in his back and chest area as he was being held to the gravel floor by Officer Brian Wood's knee or foot.

38. Tom cried out that he could not breathe and pleaded with Officer Brian Wood to call for back up, call 911, and call for an ambulance, as he could not breathe.[5]

39. That Officer Brian Wood did call for emergency medical service which quickly arrived on scene.

---

[5] It is important to note that after this moment, Officer Brian Wood's claim to qualified immunity under either state or federal law ceased to exist. As the Ninth Circuit has observed, "Under *Saucier*, courts "must examine first whether the [officers] violated [the plaintiff's] constitutional rights on the facts alleged and, second, if there was a violation, whether the constitutional rights were clearly established." *Boyd v. Benton County*, 374 F.3d 773, 778 (9th Cir. 2004) (*citing Saucier v. Katz*, 533 U.S. 194, 201 (2001)) (emphasis in original). ***The first step*** of the analysis is clearly alleged; the MPD officer violated Plaintiff's Fourth Amendment right to be free from unreasonable seizure. ***The second step*** in the analysis is clear from the Supreme Court, "[I]f the law did not put the officer on notice that his conduct would be clearly unlawful, summary judgment based on qualified immunity is appropriate." Saucier, 533 U.S. at 202. Officer Brian Wood cannot validly claim that he was not on notice that his actions against Plaintiff would violate Plaintiff's clearly stated constitutional rights. Prior case law establishes that an officer's conduct is not protected under qualified immunity if no reasonable officer could have believed that the officer's actions were unlawful or inappropriate. *See Doerle v. Rutherford*, 374 F.3d 1106, 1119 (9th Cir. 2001); *Drummond v. City of Anaheim*, 343 F.3d 1052, 1062 (9th Cir. 2003) (***Deciding that they did not need an exact prior case, the Ninth Circuit held that when officers kneel on the back and neck of an arrestee and press the weight of two officers' bodies on arrestee, especially after the arrestee cries for air, violates clearly established law, and reasonable officers would have been aware of such***).

15-53036 003471

40. Ignoring Tom's cries of pain and statements that he [Tom] could not obey Officer Brian Wood's order, Officer Brian Wood inexplicably came to the conclusion that if Tom were still wreathing in pain, (i.e. in Officer Brian Woods interpretation, resisting), then Tom was not in pain. Officer Brian Wood commands that he Tom will comply with his orders.

41. The Assisting Officer arrives on the scene and also applies pressure to Tom and demands that Tom put his other hand out.

42. Tom responds that he cannot do that. The officers then force Tom's hands into the position that they desired.

43. That an officer, yet to be identified specifically informed Officer Brian Wood "That you [Officer Brian Wood] are going to have a use of force issue to write up. Like to review this tape as soon as possible."

44. That a person who identified himself to Tom as the Chief of Police at some point arrived on the scene.

45. Tom was handcuffed to a gurney and taken to St. Alphonsus Regional Medical Center, McCall, Idaho.

46. That some of the physical injuries that Tom sustained are depicted in Exhibit "A" herein.

47. That when Tom was released from the hospital, Officer Brian Wood transported Tom to Valley County Jail where Tom was taken into custody.

48. Tom was charged with a violation of I.C. §18-705, Resisting and Obstructing Officers.

49. After posting bond, Tom was released from custody.

50. On July 6, 2011, Tom and his wife were driven to Lewiston, Idaho by their daughter.

15-53036 003472

51. On July 7, 2011, Tom was taken by his daughter to St. Joseph's Regional Medical Center in Lewiston, Idaho.

52. While at St. Joseph's Regional Medical Center, Lewiston, Idaho, Tom was further treated for injuries that he sustained at the hands of the MPD. X-rays were taken, Tom was given oxygen and the rocks were cleaned from the injuries that he suffered on July 6, 2011.

53. It was learned that Tom had sustained four bruised ribs and Tom's hands were swollen but not broken.

54. Tom continues to suffer from the physical injuries received as a result of his encounter with Officer Brian Wood on July 6, 2011.

55. On July 25, 2011, Tom returned to St. Alphonsus hospital in McCall where he was seen for continued shortness of breath and severely escalated blood pressure.

56. Tom learned that he had developed a staph infection to his thumb as a result of the treatment he received from his July 6, 2011 arrest by MPD. Additionally, Tom learned that he was suffering from pneumonia.

57. On July 28, 2011, Tom's cardiologist adjusted Tom's blood pressure, and placed Tom on Oxygen full time. Tom is still working with his cardiologist to get his blood pressure under control.

58. As a result of the arrest of July 6, 2011 by the MPD, Tom continues to seek medical assistance for the injuries received and his worsening medical condition that are directly attributable to the action of Officer Brian Wood and the unnamed Assisting Officer.

59. On August 17, 2011, the violation of I.C. §18-705, Resisting and obstructing officers which was dismissed and the court amended the charge to one of a violation of I.C. §49-1403 which required the payment of a $100.00 bond.

15-53036 003473

60. The case was dismissed with prejudice on August 17, 2011. *See* Exhibit "B"

VI. DAMAGES

61. As a result of the foregoing, Plaintiff has not only suffered from the physical injuries delineated herein, Tom has also suffered emotional distress. Plaintiff continues to suffer from humiliation, lack of motivation, loss of joy, ill temper, anxiety, lost sleep, irritability, headaches, and a profound sense of personal violation and betrayal.

62. As a result of the foregoing, Plaintiff has suffered physical damages as described in ¶¶ 46, 52, 53, 55, 56, 57 and 58 herein.

63. As a result of the foregoing, Plaintiff has lost part of his self-respect and feeling of self-worth. Plaintiff, a veteran, now questions his prior respect he had for law enforcement officers.

VII. CAUSES OF ACTION

COUNT I

Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983

(General Allegations)

64. Plaintiff realleges and incorporates herein by reference the allegations set forth in paragraphs 1-63 inclusive herein as ¶ 64.

65. By the aforementioned acts and omissions committed by Defendants, the Defendants, under color of law, deprived the Plaintiff of his constitutionally protected right to be free from unreasonable search and seizure under the Fourth Amendment to the United States Constitution.

66. In violating the Plaintiff's rights as set forth above, Defendants conducted an unreasonable search and seizure of the Plaintiff when without cause, Defendants physically overpowered Plaintiff, spinning him around, pulling his arms back, and throwing Plaintiff to the graveled ground causing Plaintiff to land on his face thereby sustaining injuries to his person. These actions are the crux of Defendant's use of excessive force, in violation of Plaintiff's rights under the Fourth Amendment to the United States Constitution, and to 42 U.S.C. § 1983.

67. As a direct result of the violation of his constitutional rights by Defendants, Plaintiff suffered general damages and is entitled to relief under 42 U.S.C. § 1983.

68. The Conduct of Defendants was willful, malicious, reckless and/or oppressive, and was so extreme in nature that punitive damages should be imposed in an amount commensurate with the wrongful acts alleged herein.

COUNT II

Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983

(Use of Excessive Force)

69. Plaintiff realleges and incorporates herein by reference the allegations set forth in paragraphs 1- 68 inclusive herein as ¶ 69.

70. Defendants failed to abide by constitutional practice when conducting a seizure, which led to the application of excessive force against Plaintiff and a violation of Plaintiff's right to be free from unreasonable search and seizure.

71. Aforementioned Defendants, while executing their unconstitutional seizure of Plaintiff, were acting under color of state law, through their employment as law enforcement officers for the McCall Police Department, Valley County, Idaho.

15-53036 003475

72. As a result of Defendants' actions, Plaintiff suffered physical injuries as described in ¶¶ 46, 52, 53, 55, 56, 57, and 58 herein resulting in personal embarrassment, and mental anguish in violation of 42 U.S.C. § 1983.

COUNT III

Deprivation of Constitutional Rights Under Color of State Law
Violation of Civil Rights Pursuant to Title 42 U.S.C. § 1983
(Denial of First Amendment Rights)

73. Plaintiff restates, incorporates and re-alleges paragraphs 1 - 72 inclusive herein as ¶ 73.

74. At all times material hereto, the conduct of the Defendants was subject to 42 U.S.C. § 1983 and the Defendants were acting under color of law.

75. By arresting Plaintiff in the manner and under the circumstances heretofore set forth in this complaint, Defendants have impaired and violated Plaintiff's rights under the First Amendment to the United States Constitution, These violations entitle Plaintiff to relief under Title 42, Section 1983 of the United States Code. As a direct and proximate result of the violations of Plaintiff's constitutional rights, Plaintiff suffered direct and consequential losses and damages.

COUNT IV

Idaho Tort Claims Act Pursuant to I.C. § 6-901 and all Subsequent Sections
(Reckless, Willful, and Wanton Conduct)

76. Plaintiff realleges and incorporates herein by reference the allegations set forth in paragraphs 1-75 inclusive herein as ¶ 76.

77. The Defendants committed reckless, willful, and wanton conduct when they intentionally applied excessive force to Plaintiff without lawful cause or provocation. Defendants acted intentionally and knowingly to cause unreasonable bodily harm to Plaintiff, which had a high degree of probability that harm, would result from Defendants' concerted actions.

78. Due to the law enforcement officer Defendants' above actions, Plaintiff did suffer bodily harm and great personal injury, therefore the Plaintiff is able to recover damages under the Idaho Tort Claims Act, and further to recover punitive damages under 42 U.S.C. § 1983.

VIII. PRAYER FOR RELIEF

WHEREFORE, Plaintiff prays that he be granted the following relief:

1. A finding that Defendants' conduct violated Plaintiff's Constitutional rights, under the Fourth Amendment to the Constitution, to be free from unreasonable search seizure.

2. A finding that Defendants' conduct violated Plaintiff's Constitutional rights, under the First Amendment to the Constitution, to be free from retaliation by the state from exercising his right of freedom of expression.

3. An award compensating Plaintiff, according to proof, for personal damages, personal expenses related to physical harm suffered at the hands of Defendants, emotional harm, mental suffering, personal embarrassment, and social embarrassment pursuant to the Idaho Tort Claims Act under I.C. §§ 6-901, 6-902, 6-906, 6-907; and federal law under 42 U.S.C. § 1983.

4. A finding in Plaintiff's favor, that the Defendants stand liable to Plaintiff for an award of Plaintiff's reasonable attorneys' fees, litigation costs and other costs of this action, together with a determination of the amount of Plaintiff's reasonable attorneys fees taxable to the Defendants, along with a determination of the Plaintiff's litigation costs and expenses taxable to the Defendants, pursuant to 42 U.S.C. § 1988 for claims arising under 42 U.S.C. § 1983.

15-53036 003477

5. A finding that the Defendants' actions were so excessive, as to constitute gross negligence, and/or reckless, willful, and wanton conduct, to such a degree that punitive damages[6] are recoverable by the Plaintiff under 42 U.S.C. § 1983 and relief for no less than five hundred thousand dollars and zero cents[7] under Idaho code.[8]

Respectfully Drafted

By Plaintiff's Attorneys,

Camacho Mendoza Coulter Law Group, PLLC

/s/
RONALDO A. COULTER

[6] The Supreme Court made it clear that punitive damages may be awarded under 42 U.S.C. § 1983 when Defendants' conduct is shown to be motivated, "by evil motive or intent, or when it involves reckless or callous indifference to the federally protected rights of others." *Smith v. Wade*, 461 U.S. 30, 56, (1983). Other courts have found that when officers commit excessive acts of violence, as is the case herein, with no basis for such action, that the force must be reckless and with evil motive. *See Lewis v. Downs*, 774 F.2d 711, 715 (6th Cir. 1985) (holding that two officers were liable for punitive damages under 42 U.S.C. § 1983 when they struck a handcuffed arrestee in the face with the butt of a nightstick) (rev'd on other grounds); *Clark v. Beville* 730 F.2d 739, 741 (11th Cir. 1984) (stating that officer inflicted injuries to the arrestee's arm, wrist, and shoulder, which met the standard for willful and gross disregard for arrestee's rights; thus officer was liable for punitive damages).

[7] I.C. § 6-926 states:

> The combined, aggregate liability of a governmental entity and its employees for damages, costs and attorney fees under this chapter, on account of bodily or personal injury, death, or property damage, or other loss as the result of any one (1) ***occurrence or accident regardless of the number of persons injured or the number of Plaintiffs, shall not exceed and is limited to five hundred thousand dollars ($500,000), unless the governmental entity has purchased applicable, valid, collectible liability insurance coverage in excess of said limit, in which event the controlling limit shall be the remaining available proceeds of such insurance.*** If any judgment or judgments, including costs and attorney fees that may be awarded, are returned or entered, and in the aggregate total more than five hundred thousand dollars ($500,000), or the limits provided by said valid, collectible liability insurance, if any, whether in one or more cases, the court shall reduce the amount of the award or awards, verdict or verdicts, or judgment or judgments in any case or cases within its jurisdiction so as to reduce said aggregate loss to said applicable statutory limit or to the limit or limits provided by said valid, collectible insurance, if any, whichever was [is] greater. I.C. § 6-926 (Bold and italics added).

[8] The 500,000 dollar cap was set by the Idaho State Legislature, but the Legislature could not have foreseen the given the nature of the acts described herein, the 500,000 dollar maximum would be conservative compensation at best. Considering the totality of the circumstances and egregiousness of the Defendants' acts, the amount prayed for is both minimal and reasonable.

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF VALLEY

STATE OF IDAHO Plaintiff vs. RODNEY T. WHALEY Defendant	CASE NUMBER CR 2011-2011-M STIPULATED MOTION TO AMEND CHARGES AND TO FORFEIT BOND

COMES NOW, the Defendant and Carol A. Brockmann, McCall City Prosecutor and Defendant who hereby move this Honorable Court to amend the charges in the above captioned matter to the charge Offenses by Persons Owning or Controlling Vehicles, Idaho Code 49-1403, a misdemeanor. Further, the parties move by stipulated motion that a bond forfeiture under the provisions of Idaho Code 49-240 is appropriate in this case. The Defendant and the State both agree that it is in the best interest of justice for a bond of $ 100.00 to be posted, with that bond being forfeited. Under the provisions of I.C. 49-240, once the bond is posted, the case will be dismissed with prejudice and the bond shall be distributed as court costs and fines in accordance with statutory provisions.

Dated this 17th day of August 2011.

IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF VALLEY

STATE OF IDAHO Plaintiff vs. RODNEY WHALEY Defendant	CASE NUMBER 2011-2011-M ORDER AMENDING CHARGE AND FOR BOND FORFEITURE

This matter was before the Court upon the Joint Motion to amend the charge to Offenses by Persons Owning or Controlling Vehicles, Idaho Code 49-1403. The Court, being fully advised of the premises therein, hereby ORDERS AND ADJUDGES the charge is amended as petitioned and the charge shall now reflect Offenses by persons Owning or Controlling Vehicles, Idaho Code Section 49-1403.

Further, by motion of the State and Defendant, and the bond of $ 100.00 having been posted with the Court, the above entitled case is HEREBY DISMISSED. The bond posted in the case shall be forfeited and distributed as though there was a conviction.

SO ORDERED THIS 17 day of February, 2011.

Henry R. Boomer, Magistrate Judge

Please find enclosed a copy of the bills from McCall Fire & EMS, account #1467 and St Lukes McCall, LTD, account #378977.

These bills were a direct result of Tom's arrest on July 6, 2011(date of service on the enclosed bills). The police called the EMS who took Tom to the hospital for treatment of the injuries sustained as a direct result of police action.

According to our Attorney, because Tom was under the care and arrest of the McCall Police, the police department is responsible for the funds owed. We have forwarded the information to the above companies. The police department will also need to reimburse Blue Cross for the portion they have already paid for this date of service. A copy of Blue Cross account is attached.

MARY B. KUMMER
MEMBER SERVICES MANAGER

December 31, 2015

Detective Corey Gates
Idaho State Police
700 S. Stratford Drive, Bldg 9
Meridian, ID 83642

RE: Public Records Request Received December 29, 2015

Dear Det. Gates:

This letter is in response to your Public Records Request asking ICRMP to provide you with public records related to claim number 2011038341, Rodney Whaley versus City of McCall.

Idaho Code § 74-107(11) and 9-203(2) as incorporated into the public records laws by Idaho Code § 74-104, which relates to records of a risk retention or self-insurance program, states that "at the time any claim is concluded, only statistical data and actual amounts paid in settlement shall be deemed a public record." The exact language of the pertinent statues is as follows:

> I.C. 74-107(11) Records of any risk retention or self-insurance program prepared in anticipation of litigation or for analysis of or settlement of potential or actual money damage claims against a public entity and its employees or against the industrial special indemnity fund except as otherwise discoverable under the Idaho or federal rules of civil procedure. These records shall include, but are not limited to, claims evaluations, investigatory records, computerized reports of losses, case reserves, internal documents and correspondence relating thereto. At the time any claim is concluded, only *statistical data and actual amounts paid in settlement* shall be deemed a public record unless otherwise ordered to be sealed by a court of competent jurisdiction. *Provided however*, nothing in this subsection is intended to limit the attorney client privilege or attorney work product privilege otherwise available to any public agency or independent public body corporate and politic. (emphasis added)
>
> I.C. 9-203(2) An attorney cannot, without the consent of his client, be examined as to any communication made by the client to him, or his advice given thereon in the

course of professional employment. The word client used herein shall be deemed to include a person, a corporation or an association.

Listed below is the statistical information relating to settlement payment made on behalf of our insured member, City of McCall:

Date of Check: April 10, 2012
Check Paid to: Camacho Mendoza Coulter Law Group, PLLC
Amount of Check: $14,500

The law requires me to inform you that you may appeal this decision by filing a petition in conformance with the Idaho Public Records Laws, Title 74, Chapter 1. The petition must be filed in the Fourth Judicial District Court of Idaho within 180 calendar days of the mailing of this notice. Idaho Code § 74-115. Although statutory exemptions are herein cited, the citing of such exemptions shall not constitute a waiver of any legal basis or privilege which also may be applicable.

Sincerely,

Mary Kummer

Mainstream Firearms Training Will Get You Killed

Thoughts for Prepared Citizens

Email **Print**

We've all read articles with titles like this, and invariably we feel a little cheated by the time we finish. Sure, we might have learned a minor flaw or area of caution with the status quo, but the article clearly had more bark than bite. Well settle in, because we are going to discuss why mainstream firearms training actually will get you killed.

I've been involved in firearms and tactics training for over a decade both as a student and as an instructor. Much of my experience comes from private sector, and I picked up some good stuff from my time on a law enforcement tactical team. I have trained, and been trained by, private sector,law enforcement agencies, S.W.A.T., Navy SEALS, and more.

After all that training, I had a realization. All the good schools teach the same stuff. Sure, one school has their own twist on how to clear a type 3 malfunction, one school thinks we shouldn't call it a type 3 malfunction, one school wants you to reload your handgun first, while others want you to reload your rifle first. All these things matter, and I have an opinion for each of them, but in the grand scheme of marksmanship and tactics, these are small and almost irrelevant differences.

Why do all the good schools teach the same stuff? Because it works, and it works well. Decades of documented gunfights (much of it caught on camera), both stateside and overseas, have made it clear what works and what doesn't. Countless men died because of what didn't work, and the training industry responded well, weeding out the junk and improving what already works to make it work even better. Now you can go to almost any big name school in the country and receive solid instruction in methods that are proven to work.

You might be a bit confused right now. First I said the training would get you killed and now I'm telling you how great it is!

Here's why: Most schools teach the same methods and tactics that our armed forces are using. These methods work well for our troops because they integrate with, and rely on, supply convoys,heavily armored vehicles, air support, artillery, large teams of fellow soldiers, and more. Those methods work for S.W.A.T. Teams for similar reasons.When SHTF will you or your group of prepared friends have those things? Are the threats you expect to face the same as our military faces? Will your missions be the same? Will you be operating under the same set of rules?

The answer of course is, "No". You have entirely different abilities, equipment, rules, enemy, and mission, but you train the same. That's a bit like taking hunter education to learn how to drive. Mainstream training is good for cops and soldiers, but it is entirely out of touch with the needs of prepared citizens.

So how is "prepper" oriented training different? Without getting into the details, here are a few examples.

Engage vs. Evade: The common idea today is to dominate the enemy (shock and awe). Modern firearms training says you engage the enemy when you see him (if you have a target, shoot). This is ingrained in our soldiers for some very good reasons, but if one or two people encounter ten and try to "dominate" them or overwhelm them with "shock and awe" they will fight bravely and die quickly. As a prepper, your training should be a little more realistic to the fact that you will often be alone or in a very small group. Your tactics should reflect that with an emphasis on stealth, evasion, and other guerrilla tactics.

Stealth: Prepper oriented training should place an emphasis on suppressed (silenced) weapons. The goal here is not to get shot back at (the five thugs don't realize they are missing one until the second or third one drops). We aren't talking $10,000 Special Forces weapons here. A good accurate 22 with a commercial or makeshift suppressor (legal in most states) is absolutely devastating in trained hands.

Distance: Magnified optics can be a game changer. Most of the shooting schools today never have their carbine students shoot past 100 yards,placing a heavy emphasis on spraying lead at close range. Some don't shoot past 50 yards! With a magnified scope on a hunting rifle it takes very little training to hit targets in the 300-400 yard range. To your enemy with their red dot sights and modern training, you will seem a mile away as you methodically engage them. Of course, if you can afford decent equipment and a little training you can stretch this advantage by several hundred yards more. Fighting like this may not be sexy, but it sure beats your odds of surviving a close range encounter... especially if you are out numbered.

Same Equipment, Different Use: As night vision gets cheaper, many civilians are taking night fighting courses where they learn to mount their night vision on their helmet and aim their weapon with an infrared laser. Infrared lasers draw a line from the shooter to the target that is visible to anyone with night vision.This is fine for our troops because their enemy rarely has night vision and if an enemy happens to have it and shoots at them, it's a great excuse to call in an airstrike on their head. As a civilian post SHTF, drawing a line to your hiding spot might just be

15-53036 003831

the last thing you do. Night vision is still useful, just put it behind an Aimpoint and don't use the laser.

These are just a few examples of training that works great for its original audience, but will get youkilled.

If we dropped a fully armed and well trained soldier alone in the heart of Afghanistan, how long would he survive? A few hours? A few days? A month would be a miracle. On the other hand, we've had CIA operatives living in Afghanistan since before the war and they are still there today. One is not trained better than the other, they are each trained for their specific mission. If either was asked to do the other person's job the results would be fatal.

Don't train for someone else's mission. It will get you killed.

Subject: RE: necropsy report, draft

Sean
Here are the anatomical directions. I can insert these in each place in the necropsy report if needed.
Mark

Directions-

Medial – towards the middle of body
Lateral – toward the side
Cranial – towards the head
Caudal – towards the tail
Ventral – towards the sternum or abdomen midline
Dorsal – towards the backbone

Mark

Jason Horst was able to review your draft and he was wondering if you could include maybe a laymen's description after each wound, while keeping your official description? He thought it may make it easier for the for a quick description. If not, he said it would be fine the way you wrote it, he just would need your expertise to translate it. Hahaha! Thanks again!

Sheena Luufenberg Wellard Crazy! Drove by this last night. My stomach hurt thinking about the poor people who had been cut out of the car and now my stomach really hurts thinking about how it ended up. When we went by the bull was still alive, surrounded by vehicles and cops had weapons drawn. I'm assuming we barely missed it, thank goodness, since we had 5 small children in the car. Horrible ending!

Annie Eich I saw this posted. "This is from a lady whom was there: Susan Gregersen Let me put you folks straight on this. The bull was hit, the cops came, dispatch called Jack to come, they knew it was his bull! One cop shot the bull but didn't kill it, Jack came like dispatch asked of him, with his gun to put the bull down, cops freaked out, and shot Jack 5 times! His wife suffered a major heart attack and was life flighted to Boise! Hope those cops had there all important body cams on!! Prayers please for our community, we are going to need it!"

Subject: Adams County --- testing of swab from .204
Attachments: 122915 to Detectivce Horst.pdf

Detective Horst,

Attached is the letter we discussed re: testing of the swab from the .204 round. I have advised Kevin Dinius that you will be doing this testing and that further testing will not be possible.

Please do not hesitate to let me know if you have any questions or if you need anything else from us.

Thanks, Jason

LAWRENCE G. WASDEN

December 29, 2015

Detective Jason Horst
Idaho State Police
700 South Stratford Dr.
Meridian, ID 83642

Re: Adams County Officer Involved Shooting

Dear Detective Horst,

This letter confirms our discussions regarding testing of the DNA swabbed from the .204 bullet. It is our understanding that a small amount of blood was swabbed from that round and that you plan to have the ISP lab test the swab in hopes of determining the source of the blood. You have explained that this testing will consume all of the DNA and that further testing will not be possible. We agree the test is necessary, and thus, we authorize you to proceed.

I appreciate your patience on this issue, and I urge you to contact me with any other questions you may have. Thank you.

Very truly yours,

Jason Slade Spillman

Subject: Adams County Case

I just got off the phone with the Adams County Coroner. She has not completed her report and is still waiting on toxicology results to finalize her report. She estimated she will have her report completed in 6 weeks. The reason she called me was to get reassurance regarding a public records request from the Idaho Statesman for her results so far. I informed her not to release any information and to deny the request based on the fact her report and findings will be used in our active ongoing investigation. She agreed with my assessment of the situation and decision. She said she would deny the Statesman request based on my reasoning. If I was wrong in my assessment please let me know ASAP. It is getting difficult to keep control of this investigation.

Subject: Additional Tests

Hello Allison,

We would like to do some follow up testing in addition to the primer residue testing already conducted. Specifically we would like to do distance analysis on Mr. Yantis' clothing and would also like to see if Mr. Morgan can detect the presence of residue which would indicate if Mr. Yantis fired his weapon at Deputy Roland.

It is my understanding that the process would look something like this.

Mr. Morgan would first test fire Mr. Yantis' rifle to get a more accurate analysis of the rate and distance of dissipation for that specific rifle. This would tell us how close they would have needed to be in order for the powder to even show up on Roland's uniform.

We should also be able to get an actual distance estimate based on the hits on Yantis' clothing.

Based on the information these two things show us, along with the statements of the officers, we could better conclude if detection of gun powder would even be possible on Roland's uniform.

Let me know the estimated costs and the specific list of materials we need to send.

Thank you,
Jason

Jason Horst
Detective
Idaho State Police

Subject: CDA Jan 6

Hello Tammy,
Don't know if you remember me but I used to be on the governor's security detail before Blake.
I have a couple questions for you concerning the flight you have going round trip to CDA on January 6.
First is simply what do I need to do to get a seat reserved for a detective to take that round trip.
Second if I can get a detective on that flight are there any costs associated and what are the procedures to pay it.

I am trying to send a detective to the State Police Lab to retrieve 3 guns and a piece of asphalt which are evidence in a case I'm working and bring them back to Boise.
Please let me know what I need to do to make this happen. I'm sure the detective would love to not take that drive again.

Jason

Subject: Distance Determination Analysis

Good Morning Det. Horst ~

I wanted to touch base with you quickly to see if you have decided whether or not it would be okay for us to remove a small section of the officer's shirt to retain for further analysis should the test for lead come back negative. To refresh your memory, doing this would not impede the test for lead that Tom Morgan would be conducting on the area of interest. Once Tom does the test for lead no further testing can be done. By removing a small section of the shirt prior to the lead testing, it can be retained for further analysis if the area of interest turns out NOT to be lead.

Additionally, to give you a recap of what has been done so far:

1) All three firearms have been test fired at distances of contact through 72 inches.
2) A thorough macroscopic exam, microscopic exam, and chemical analysis has been conducted on the down jacket.
3) A thorough macroscopic exam and microscopic exam has been conducted on the officer's shirt and pants.
4) Preliminary observations have been conducted on the remaining items of clothing (vest, thermal shirt etc.)
5) Preliminary trajectory examination has been conducted on the Ruger.

As soon as we hear from you we will proceed with the chemical processing (and possible further analysis) on the officer's shirt.

I also wanted to inform you that we will be exceeding the 10-12 hours of examination time originally quoted due to the necessity of processing multiple areas on several garments, the possibility of further examination on the officer's shirt, as well as the possibility of further test firing (depending on the result of the chemical analysis conducted on the officer's shirt). I would estimate an additional 6-10 hours all depending on where the analysis takes us. We can most certainly keep you informed along the way. I wanted to be sure that you were aware of this and also that we have permission to continue with the analysis. We will of course work as quickly and efficiently as possible.

Feel free to email or call me with your responses! Thank you for your time!

Allison

Subject: DNA Testing

Jason, as you are aware we believe we recovered a spent .204 round from the crime scene in Adams County. This is the caliber of bullet that Jack Yantis was using. Before we sent the round and other evidence to the FBI lab, we had the ISP lab check the spent round for biological trace evidence. The ISP lab has informed us there was blood on the round and they have a very small sample to conduct a DNA test. The issue is the entire sample will be consumed when the DNA test is performed. The ISP lab generally requests a letter from defense attorneys authorizing such tests that consume all of the sample before they conduct such tests. However, in this case we have not charged anyone.

We need to know if the blood on the spent .204 round is from the Bull or some other source. I do not know if the lab will allow the AG's Office to authorize such a test or if we want to contact the officer's attorney and have him authorize the test. Due to the fact neither of the two officers had any wounds the only blood that could be on the bullet would be the Bull's blood or Jack Yantis' own blood, but we need to know the results.

Subject: Drawing

Jason,

I printed out a large drawing and put it on the desk next to the other drawings. It is rolled up and will have a sticky note. I am supposed to be off until Friday night, however I can come in if needed. Let me know if you want anything added or changed to the drawing.

I will burn a copy of all the data to a CD when it looks like you are good with the drawing.

Thanks,

Re: Adams County Officer Involved Shooting

Dear Detective Horst,

This letter confirms our discussions regarding testing of the DNA swabbed from the .204 bullet. It is our understanding that a small amount of blood was swabbed from that round and that you plan to have the ISP lab test the swab in hopes of determining the source of the blood. You have explained that this testing will consume all of the DNA and that further testing will not be possible. We agree the test is necessary, and thus, we authorize you to proceed.

I appreciate your patience on this issue, and I urge you to contact me with any other questions you may have. Thank you.

Very truly yours,

Jason Slade Spillman

D3 Supervisors:

As you know, the recent incident in Adams County has been a highly discussed topic in the media. ISP is serving as the lead agency and it is important to remind everyone that no ISP employees are to discuss particulars of the case with anyone outside the scope of the investigation. That would include comments on social media, news outlets, or simply conversation with family or friends. Preserving the integrity of the case must be our major focus.

Supervisors, please forward this information to your teams ASAP.

Thank you,

Captain Bill Gardiner, M.A.A.L.

Kevin J. Darrah Poorly trained gun happy bandoleros wearing the badge... I was the very first Tractor Trailer that night going Southbound.. It was a sickening scene, I got pictures from a distance. My right to do so as I was not infringing on the 'Investigation'.. Everything from the Rancher being shot, a 62 year old man, and his wife having a heart attack on scene, makes me both livid and sick.... I hope your all proud of yourselves for the way you've been portrayed too the public, just another legalized death squad... That town will not forget, may Gods mercy show forth in this dark hour they must now endure. I hope if justice isn't served, that they shit can the current Sheriff and put someone in that would inform and train his deputies on proper deployment of force. They've got one women's statement as I know of right now, and there will be more I'm sure that will come to light.

Good morning everyone! Just to let everyone know, I had front row seats for this shooting! The police officer put 5 slugs into a guys chest, because he was trying to shoot his own cow with a rifle that had been hit by another vehicle. When is the abuse of police officers going to stop? Not to mention, the wife of the guy that was shot and killed, went into cardiac arrest and is currently hospitalized because she had a heart attack. I sat on highway 95 for the better part of 8 hours last night. Absolutely sickening!

One person killed in officer-involved shooting in Council

Idaho State Police says troopers are investigating the Adams County shooting and will be releasing additional information later Monday.

2 · November 2 at 12:43pm

Joe Lombardo

Joe Lombardo Kevin it's Idaho, right? Careful my brother you were the witness to a Murder. That was not an accidental shooting. I'm sorry you had to go through that.

1 · November 2 at 12:46pm

Kevin J. Darrah

Kevin J. Darrah Yeah it's just messed up brother! I'm still trying to wrap my head around it. That guy did nothing wrong, worst case scenario, if I was the cop, I would have let him shoot his cow, and then proceeded from there on discharging a firearm. I mean this town was so small, it covered maybe eight or ten city blocks at best. It was out in the middle of nowhere, on a two-lane road. Just so happened I had to be one of the first ones on the accident scene. It was the local police department that was responsible state police got involved and had probably 8 or 10 SUV's out there. And of course they had two ambulances, and an evidence truck showed up about two to three hours before they finally collected everything and opened up the highway. The highway was closed from 7 p.m. to about 3 a.m. this morning

Subject: RE: Distance Determination Analysis

Good Morning ~

I will confirm with Tom and get back to you ASAP. However, I can tell you that the testing Tom will do will confirm whether or not nitrites are present and then whether or not lead is present – two substances consistent with gun powder. If neither of those items are present, further testing may show something else that COULD be consistent with something coming from the discharge of a firearm but may not necessarily be gun powder.

I have a call into Tom and will get back to you ASAP! Thank you!

Sent: Wednesday, January 27, 2016 7:03 AM
To: Horst, Jason
Cc: Thomas ([redacted]); Stephanie Horner; Michael Gorski; Marsha Hess
Subject: Distance Determination Analysis

Good Morning Det. Horst ~

I wanted to touch base with you quickly to see if you have decided whether or not it would be okay for us to remove a small section of the officer's shirt to retain for further analysis should the test for lead come back negative. To refresh your memory, doing this would not impede the test for lead that Tom Morgan would be conducting on the area of interest. Once Tom does the test for lead no further testing can be done. By removing a small section of the shirt prior to the lead testing, it can be retained for further analysis if the area of interest turns out NOT to be lead.

Additionally, to give you a recap of what has been done so far:

1) All three firearms have been test fired at distances of contact through 72 inches.
2) A thorough macroscopic exam, microscopic exam, and chemical analysis has been conducted on the down jacket.
3) A thorough macroscopic exam and microscopic exam has been conducted on the officer's shirt and pants.
4) Preliminary observations have been conducted on the remaining items of clothing (vest, thermal shirt etc.)
5) Preliminary trajectory examination has been conducted on the Ruger.

As soon as we hear from you we will proceed with the chemical processing (and possible further analysis) on the officer's shirt.

I also wanted to inform you that we will be exceeding the 10-12 hours of examination time originally quoted due to the necessity of processing multiple areas on several garments, the possibility of further examination on the officer's shirt, as well as the possibility of further test firing (depending on the result of the chemical

analysis conducted on the officer's shirt). I would estimate an additional 6-10 hours all depending on where the analysis takes us. We can most certainly keep you informed along the way. I wanted to be sure that you were aware of this and also that we have permission to continue with the analysis. We will of course work as quickly and efficiently as possible.

Feel free to email or call me with your responses! Thank you for your time!

Subject: DNA Testing

Jason, as you are aware we believe we recovered a spent .204 round from the crime scene in Adams County. This is the caliber of bullet that Jack Yantis was using. Before we sent the round and other evidence to the FBI lab, we had the ISP lab check the spent round for biological trace evidence. The ISP lab has informed us there was blood on the round and they have a very small sample to conduct a DNA test. The issue is the entire sample will be consumed when the DNA test is performed. The ISP lab generally requests a letter from defense attorneys authorizing such tests that consume all of the sample before they conduct such tests. However, in this case we have not charged anyone.

We need to know if the blood on the spent .204 round is from the Bull or some other source. I do not know if the lab will allow the AG's Office to authorize such a test or if we want to contact the officer's attorney and have him authorize the test. Due to the fact neither of the two officers had any wounds the only blood that could be on the bullet would be the Bull's blood or Jack Yantis' own blood, but we need to know the results.

Subject: Documents are up

Good morning,

All of the processed files for the Adams County case are now up in Laserfiche and Time Matters. In Time Matters they're linked to case 15-53036, and currently marked as Supplement (this can be adjusted). In Laserfiche they're in the folder **\SPU cases\Adams County**. Feel free to look them over when you have a chance. My morning is fairly busy, but I'd be happy to meet with anyone that wants to discuss the layout and possible adjustments this afternoon. If there's a time that works well, let me know.

Here's a list of the documents that need more attention:

- Supplement 0009 - File named "STORE N GO (E) shortcut.lnk"
  - Shortcut pointing to an external hard drive, likely should have had the contents copied over.

- Supplement 0030 - has a .cda file, meaning that an audio CD was improperly ripped.
  - There is no audio to go along with this .cda file.

- Supplement 0039 - has a WindowsRE (Recovery Environment) folder, with a 260 MB archive.
    - Looks like it was accidentally burned to a disc which was later transferred to the jump drive that we received.

- Supplement 0053 - McCall Police Department folder contains a shortcut to an audio file.
    - Shortcut points to: "M:\Case File Update 1.4.16\Roland History\McCall Police Department\Track01.cda"
    - The actual audio was not transferred.

- Supplement 0055 - has a .cda file, meaning that an audio CD was improperly ripped.
    - There is no audio to go along with this .cda file.

Stephanie--

FYI, please see attached PDF requesting preservation of evidence and records regarding the Yantis bull. IDFG's veterinarian Mark Drew performed the necropsy at ISP's request.
I assume ISP also received a similar request from the law firm. Would you let me know what ISP's position is regarding release of the necropsy files? I understand that ISP is the custodian of the photos, laboratory samples, xrays, etc.

Another lawyer sent the email below. The bull carcass went to the rendering plant the day after the necropsy. Please let me know if it's okay to let the attorney know the bull was sent to a rendering plant after the necropsy back in November.

Thanks.

RE: Death of Jack F. Yantis and bull, November 1, 2015

To Whom it May Concern:

Please be advised that this office represents the interests of Donna Yantis, wife of Jack Yantis, Sarah and Lauretta Yantis, daughters of Jack Yantis, and Rowdy Paradis, nephew of Jack Yantis. Jack Yantis was shot and killed by Adams County (ID) deputies on November 1, 2015. Please consider this letter a demand to your office to preserve any physical evidence in this matter, including, but not limited to the following:

> All video or audio tapes, cell phone data, photographs, biological materials, test results, laboratory results, reports, statements and associated notes, drafts and recordings, research statistics, forensic analysis, tables, guidelines, directions and/or comments including inter and intra departmental memoranda, enhancements, transcriptions, reconstructions/recreations, necropsy specimens and reports, crime scene reports and supplements, witness statements, "secret" files, conclusions and recommendations, and any and all other information or evidence seized, produced or delivered to you, including chain of custody documentation, related to the death of Jack Yantis or the cow bull, and any and all associated electronic files and electronically stored information.

At this time, I would like to request copies of any and all documents which pertain to any investigations. Please bill me for any other associated costs. If you require pre-payment, please contact me at 307-733-7290.

Thank you for your assistance in this matter. Please do not hesitate to contact this office if you have any questions.

Sincerely,

R. Daniel Fleck

Subject: Officer safety flier request

Tiffany-

This is a call we went to yesterday and discovered this Officer safety information: DR 106911. Can you please generate a flier with a synopsis of this information?

Deputy Gann and I responded to an "extra patrol" request from William F. "Chip" Gallagher on [redacted] Chip identified himself and his wife Carol as the parents in law of Adams County Deputy Sheriff Brian Wood. Wood was one of the deputies involved in the Officer involved shooting involving rancher Jack Yantis in Council Idaho.

Brian Wood is married to Chip's daughter Mackenzie, however Brian Wood and the Gallagher's relationship is estranged and they typically do not have contact with Brian or their own daughter at Brian's demand.

On 01/21/2015, Chip received a call from Lt. Phillips with the Adams County Sheriff's Office who in substance advised Chip that Brian has become unstable mentally. During the course of the past few weeks, [redacted]. Within the past three days, Mackenzie has left Brian and is staying in a safe location. Lt. Phillips advised that an unknown relative of Brian's had contacted him and advised that Mackenzie's parents were not safe. No direct threats have been made from Brian to the Gallagher's.

Chip knows Brian to be a highly trained sniper and Brian has claimed to have demolition capabilities and possible access to explosives.

Deputy Gann placed a phone call with Lt. Phillips and corroborated Chip's concerns as Phillips advised Brian had shown signs of PTSD and [redacted] During a contact Lt. Phillips had with Brian regarding a possible hold being placed on Brian if he did not seek treatment Brian stated, "If Cops get involved shots will be fired." [redacted] Brian's

whereabouts were unknown until, 01/20/2016. On that date, Brian was observed by Carol collecting what appeared to be guns from a fifth-wheel trailer Brian keeps on their property. Carol claimed Brian to be driving an known automobile.

In summary, over the course of the past several weeks Adams County Deputy Brian Wood has been suffering from PTSD while dealing with the Officer involved shooting [redacted] Adams County relayed to Brian's in-laws that they may be in danger due to the recent breakup and possible unknown statements Brian has made to his family.

Brian S. Wood's information.

From: Teresa Baker [mailto[redacted]
Sent: Monday, November 02, 2015 10:36 AM
To: Baker, Teresa; Catlin, Jack
Subject: press release Adams County

Jack,

This is what I pretty much read to you with your changes. I am going to have dispatch send it out for me since I can't get on the system.

Let me know if you have questions or changes.

On Sunday, November 1, 2015, at approximately 6:45 p.m. Adams County Dispatch received a report of a motor vehicle crash involving a passenger car and a cow bull on US95 at milepost 142, north of Council.

Emergency medical personnel and Adams County deputies arrived to the scene and began to extricate the driver and a passenger from a Subaru station wagon. During this time the bull that was injured in the crash began charging at first responders and other vehicles.

As deputies prepared to put the injured bull down, the owner of the bull, Jack Yantis, 62 of Council, arrived on scene with a rifle. The events that transpired over the course of the next few minutes are under investigation but, at this time, it is believed that two deputies and Mr. Yantis all fired their weapons. Mr. Yantis sustained fatal injuries and was pronounced dead at the scene. One deputy sustained a minor injury.

"Our thoughts are with our community and especially all those involved in this incident," said Adams County Sheriff Ryan Zolland. "The Adams County Sheriff's Office takes matters involving any use of force very seriously and we have requested detectives with the Idaho State Police to conduct the investigation into this incident."

The deputies who were involved are on paid administrative leave per agency policy. Their names are not being released at this time due to the ongoing investigation.

The two people who were involved in the motor vehicle crash were transported by air ambulance to a Boise hospital. The conditions of these two people are unknown at this time.

US95 was blocked from 6:45 pm until 3:05 am. Passenger vehicles were rerouted along county roads and commercial vehicles were stopped until the highway opened.

The investigation is ongoing and no other information is expected to be released today.

STATE OF IDAHO

OFFICE OF THE ATTORNEY GENERAL

LAWRENCE G. WASDEN

December 17, 2015

R. Daniel Fleck
The Spence Law Firm, LLC
15 S. Jackson, P.O. Box 548
Jackson, WY 83001

RE: Death of Jack F. Yantis and bull, November 1, 2015

Dear Mr. Fleck:

The Idaho Department of Fish and Game asked me to respond to your request for copies of:

> All video or audio tapes, cell phone data, photographs, biological materials, test results, laboratory results, reports, statements and associated notes, drafts and recordings, research statistics, forensic analysis, tables, guidelines, directions and/or comments including inter and intra departmental memoranda, enhancements, transcriptions, reconstructions/recreations, necropsy specimens and reports, crime scene reports and supplements, witness statements, "secret" files, conclusions and recommendations, and any and all other information or evidence seized, produced or delivered to you, including chain of custody documentation, related to the death of Jack Yantis or the cow bull, and any and all associated electronic files and electronically stored information.

The Department is denying your request for records as it relates to reports or portions of reports involving active law enforcement investigations, pursuant to Idaho Code 74-105(1) and 74-124(1). Production of these records may interfere with enforcement proceedings, deprive a person of a right to a fair trial or an impartial adjudication in the event prosecution occurs, and constitute an unwarranted invasion of personal privacy.

Pursuant to Idaho Code 74-103(4), a Deputy Attorney General representing the Department of Fish and Game has reviewed your request.

You have the right to appeal this denial of your public records request pursuant to Idaho Code Section 74-103(4) within one hundred eighty (180) calendar days of the date of this letter.

Sincerely,

W. Dallas Burkhalter
Deputy Attorney General

>
> Susan and Matthew,
>
> This email follows my telephone conversations yesterday with your office (Matthew) and with you (Susan) concerning two matters.
>
> First, as we discussed Susan, on Monday afternoon I intend to take a forensic pathologist to the funeral home where Jack Yantis's body is stored for a viewing. Assuming our meeting with Dr. Groben on Tuesday resolves the physician's questions (and we believe it will), the body, which you have said is released to the family, will be cremated or buried. We have spoken with the funeral home as you requested and the funeral director will meet us at 2:30 pm.
>
> Second, Dr. Glen Groben, who performed the autopsy, has agreed to meet with us on Tuesday at 1:00 and review his findings, and show us the photos and answer questions. Dr. Groben will retire within a few seeks so this is the most efficient way to accomplish this for him and for us. My prior experience with Dr. Groben has

always been positive. He is forthcoming and will likely answer every conceivable question.
>
> To accomplish the meeting with Dr. Groben, that office will require authorization from Susan as the Coroner. Please insure that an email or call is made to do so. If you now object to that meeting please call me at [redacted]. We would not likely incur the expense of bringing in another doctor to meet with Dr. Groben should you disagree with the offered meeting.

Subject: RE: Yantis ISP disk

Jason: the two audio files named Track01.cda cannot be copied from the original CD it was downloaded from the Recording device to a hard drive. If you could duplicate each CD for me that would great. I have software to convert it from the CDA form to WAV format so we can copy to the hard drive.

If you can't duplicate the disks, can you bring your set over and I can duplicate them on my duplicator.

Thanks.

Jason and Pam,

Looping us all in to share what I'm tracking.

I've gotten through all the files and documents provided thus far, thank you very much. Hopefully this is the "catch all" for either clarity or omissions:

S-55, Rise Smith audio has no content
S-30, Felty audio won't play
S-16, Courtney Stanford has no audio in it HOWEVER it is in S-41 so we have it
S-34, Process of Wood/Roland gear has no photos, HOWEVER they are in S-25
S-36 of Volume 1, ISP Walker Photos were on volume #4 you provided and called S-36

S-41, Shawn Stanford, no audio files for his interview but contains audio for Courtney Staford S-16
S-48, Thumb drive files are in S-51

v/r,
Rod

Subject: Yantis ISP disk

Hey Rod. One of the audio files won't play. It's the type of format that you can copy from a disk to hard drive. It has to be converted to .wmv format. Here's the path to the audio that was on the disk. Can you have ISP burn just the audio again. They might have to convert it first to wav format. Let me know if they have any questions, you can have them contact me directly.

Have a great weekend.

I'm editor of the Adams County Record newspaper at Council. I'm frequently asked when the investigation into the officer involved shooting of Jack Yantis on November 1, 2015 will conclude. Over a month ago it was announced that the investigation would wrap up "soon," so people are wondering why there has been no word since then.

I contacted the AG' office, and they told me to contact ISP. I would really appreciate it if you would send me an official statement as to progress on the investigation, when it might conclude, or any other information that I can relay to my readers.

You may be interested to know that a "Justice for Jack" march is scheduled in Council for March 5 at noon.

Hoping to hear from you soon,
Dale Fisk

Subject: RE: Yantis Shooting investigation

Mr. Fisk,

Thank you for your email. We too are eager to have this case resolved as well. We had hoped to have the last two forensic reports in our hands before now but we are still waiting for them. We are told that the analysis is completed and the reports are being written. Unfortunately, we are in line along with all of the other customers of the labs. These two labs are out of state and they serve customers all over the country.

I can tell you a little about the what the investigation has involved over the past 4 months. We have interviewed 42 people. Many of these people we have interviewed multiple times. We have thoroughly examined and gathered all evidence available at the scene of the incident. This included performing a necropsy on the bull. Our detectives utilized 4 different forensic labs to examine 28 items of evidence gathered in the investigation. This includes the two reports that we are still waiting for official reports from.

When we have those two reports in hand we will officially turn the case over to the Attorney General's Office. We have kept the AG's Office informed along the way in an effort to speed this investigation along as quick as possible. The significant impact on individuals, families and the community that this incident has had has been in the forefront of our minds and we appreciate the patience of all involved so that the investigation could be thoroughly done.

You are the first media outlet that I have given any of this information to but I do expect to release the same information to other outlets in a press release tomorrow.

If you have any questions, please let me know.

Best,
Teresa

Allison,
I discussed it with my supervisors and decided I would like to provide you with additional info that may be useful to Tom. Along with the coroner's report I will send the disc of photos from the autopsy and a disc of the scene which contain photos of Mr. Yantis body.
I do not want to send those out via email so I will send them out fed ex or ups.

I will also discuss the issue of the fabric testing and get back to you.

Jason

OFFICER SAFETY/EXTRA PATROL

Brian Steele Wood

- DOB: [redacted]
- Physicals: HGT: 6'2 WGT: 200 HAIR: BROWN EYE: BROWN
- LKA's: [redacted]
- Phone#: [redacted]
- Vehicle: in-laws stated Brian Wood was last seen in his 99 GRY TOYT CAM V1728T
- Also has 04 GMC SRA BGE V1728T (expired registration)

- Requested Patrol Location (in-laws Address): [redacted]
- Vehicles at Wingate Address: [redacted] 04 FORD F15 GRY & [redacted] 05 TOYT SQA WHI
- (Sister in-law lives on south east corner of [redacted] address. A Jeep is parked at her residence but she is currently out of town.)

-According to Adams County Sheriff's Office, Brian Wood has become increasingly unstable in recent weeks. Brian Wood is one of the Adams CSO Deputies involved in the recent officer involved shooting in Council. [redacted] During a conversation with Adams CSO, Wood advised "If cops get involved, shots will be fired". On 01/20/16 Wood was observed collecting guns from a fifth-wheel trailer on sister in-laws property. Since that time, Wood's whereabouts are unknown. Adams CSO stated Wood claims to have access to explosives. Wood's in-laws currently reside in Meridian (info above) and have requested extra patrol due to statements from Woods that they are "not safe".

NO CHARGES HAVE BEEN FILED ON WOOD. ACSO IS NOT CURRENTLY INVESTIGATING ANY CRIME INVOLVING WOOD. OFFICER SAFETY ONLY

Dear Custodian of Records:

Our agency is conducting an ongoing criminal investigation that involves V*erizon Wireless* accounts. As part of that investigation and pursuant to 18 U.S.C. § 2703(f), we are requesting that any and all information currently in your possession related to the *Verizon Wireless* user accounts listed below be preserved pending the issuance of formal legal process.

More specifically, we are requesting that you preserve all basic subscriber information, all account contents including call history logs, opened and unopened email, text messages, photographs, instant message content and deleted email/messages/texts that may still remain on your servers; in addition to address book and/or contacts information, related to the following accounts, customers and/or subscribers from the opening of the account or as far back as your records are retained through present date:

Verizon Wireless Number: (208)_____

Verizon Wireless Number: (208)_____

At this time we are expecting to obtain formal legal process in the next 90 days. We acknowledge that if we do not serve legal process upon you in the next 90 days, and do not request an extension, the preserved information may no longer be available.

This request applies only retrospectively. It does not in any way obligate *Verizon Wireless, Inc.* to capture and preserve new information that arises after the date of this request.

We will be submitting additional preservation letters on at least one of the accounts every five days.

Yours truly,

[*Investigator's Name*]

Good afternoon Det. Horst ~

I have been in touch with Tom Morgan and gone over the discussed protocols.

It should take approximately 10 hours for all of the analysis and it shouldn't exceed 12 hours. The cost is $400/hour so you're looking at about $4,000-$4,800. We will perform all the analysis as efficiently as we can but still maintain thoroughness.

As far as materials, other than the firearms and clothing, we would need comparable ammo to the ammo used in the incident for each firearm.

Please let me know if you have any further questions or concerns and if I can be of any further assistance!

Thank you kindly!

Allison

Subject: Additional Tests

Hello Allison,

We would like to do some follow up testing in addition to the primer residue testing already conducted. Specifically we would like to do distance analysis on Mr. Yantis' clothing and would also like to see if Mr. Morgan can detect the presence of residue which would indicate if Mr. Yantis fired his weapon at Deputy Roland.

It is my understanding that the process would look something like this.

Mr. Morgan would first test fire Mr. Yantis' rifle to get a more accurate analysis of the rate and distance of dissipation for that specific rifle. This would tell us how close they would have needed to be in order for the powder to even show up on Roland's uniform.

We should also be able to get an actual distance estimate based on the hits on Yantis' clothing.

Based on the information these two things show us, along with the statements of the officers, we could better conclude if detection of gun powder would even be possible on Roland's uniform.

Let me know the estimated costs and the specific list of materials we need to send.

Thank you,
Jason

Matthew,

Thanks for working through this with us. I know you are planning to follow up with the Coroner, but I wanted to let you know I just received a voice message from Chuck Peterson. Groben apparently told Chuck that he'd need a fax or e-mail from the Coroner advising that it's okay for him to speak with Chuck and his expert before he could actually talk to them. I think Chuck left that message since this is time-sensitive for him in that he's trying to coordinate his expert's flight schedule. I

apologize for any delay we have caused, but I wanted to pass along this info so everyone would know where the situation stands.

Please do not hesitate to let me know if you have any questions. Thanks again, Jason

Re: Medical examination and autopsy report for Jack F. Yantis, decedent, Adams County Coroner Case No. 2015-01

Attention: Chuck Peterson

Please find the following on behalf of the Office of the Adams County Coroner, Sue Warner, in response to inquiry sent by Chuck Peterson. As of late last week the Adams County Coroner's Office obtained possession of the autopsy report in regard to the above-named decedent. That report has been caused to be delivered to the Idaho State Police, Region 3, Meridian Idaho.

There is an active investigation being carried out by the Idaho State Police. The Office of the Attorney General of the State of Idaho (OAG) has been appointed as special prosecutor on the matter. The report and any oral statements from the examiner all represent potential evidence in a criminal investigation. Disclosure of these items is declined pursuant to Idaho Code §§ 74-105(1), 74-124. Provided, however, that it is the position of the Adams County Coroner's Office that such reports and oral statements in regard to said autopsy are completely subject to release at the discretion and direction of the OAG. Further inquiries in regard to this information should be directed to the OAG at [redacted]

The information above has been provided on behalf of the Adams County Coroner's Office based upon information available upon conferring with that office. You have the right to

appeal this denial or partial denial of your requests by filing a petition in compliance with the provisions of Chapter 1, Title 74 of Idaho Code to the extent that the request comes under the purview of said chapter. Such petition must be filed in the District Court of Adams County, Idaho, within 180 days of the date of mailing of this notice.

Sincerely,

Matthew W. Faulks
Prosecuting Attorney

Subject: Brian Wood Recording

Jason/Bob:

Attached please find the phone conversation recorded by MacKenzie Wood. This recording was a single party consent recording based upon the recording of MacKenzie. This call occurred between MacKenzie and her husband, Brian Woo, on Sunday, January 17th at 10:42 AM. They were both in the McCall area at different houses. I have reviewed the entire recording. The initial recording of Brian's voice is difficult to hear, but becomes more clear through the call. His specific statement about "Jack" is late in the call. However, early on in the call he acknowledges his "gun play with officers" statement. It is my opinion that most of this recording is more probative related to potential [redacted] but given the additional context you have in your separate investigation you may find other information of value. Per MacKenzie's statement below, in the context of their [redacted] Brian made multiple Jack Yantis statements or "man killing" references to her verbally other than this call. I have not discussed whether or not you would want to follow-up on these. I presume you will want to review the entire tape and decide from there. Below is MacKenzie's statement to me about the recording:

"*I have attached the voice recording of a conversation we had when he started making t[h]reats. Right around min 38 is when he really starts revving up, 40 min picks up more...just before minute 43 is when his real threat starts. I really wish I had recordings of other conversations when he was mad and said stuff like this, but I don't. The day he was threatening the animals is the first day he started doing the veiled threats about how "the last person that pushed him to his limits was Jack and I know what happened to him". He has said something along those lines several times, and has mentioned that he killed a man several times. After the first time he made , I called* [redacted] *and told him what he said. He said it wasn't a very veiled threat and that I was better off without him and that talking to the police was the right thing to do. I would be happy to give you full permission to talk to him if that would be at all helpful. I can also get you the contact information for the people who heard (at least some of) the animal t[h]reats and* [redacted] *it was a long time officer, his wife and another officer's wife. He also threatened at one point that he had* [redacted] *I never knew of such thing but told him if he did I would have nothing to be ashamed of* [redacted] *He didn't threaten that one again*."

NOTE: I had to listen to the recording on my phone as I did not have the correct computer driver. Let me know if you have issues with the file and I can forward from my phone if necessary.

Hi Jason – just to confirm our conversation this morning, here is the schedule for the plane on Wednesday:

Depart Boise at 7:30 am (wheels up), so arrival around 7:10 would be good – arriving in Coeur d'Alene at 7:50 am
Depart Coeur d'Alene at 3:00 pm back to Boise, arriving at 5:20 pm

I was wrong on the cost though, they have more passengers, so it brings ISP portion down to approximately $460.

Thanks!

Subject: CDA Jan 6

Hello Tammy,
Don't know if you remember me but I used to be on the governor's security detail before Blake.
I have a couple questions for you concerning the flight you have going round trip to CDA on January 6.
First is simply what do I need to do to get a seat reserved for a detective to take that round trip.
Second if I can get a detective on that flight are there any costs associated and what are the procedures to pay it.

I am trying to send a detective to the State Police Lab to retrieve 3 guns and a piece of asphalt which are evidence in a case I'm working and bring them back to Boise.
Please let me know what I need to do to make this happen. I'm sure the detective would love to not take that drive again.

Good Morning ~

I will confirm with Tom and get back to you ASAP. However, I can tell you that the testing Tom will do will confirm whether or not nitrites are present and then whether or not lead is present – two substances consistent with gun powder. If neither of those items are present, further testing may show something else that COULD be consistent with something coming from the discharge of a firearm but may not necessarily be gun powder.

I have a call into Tom and will get back to you ASAP! Thank you!

Subject: Distance Determination Analysis

Good Morning Det. Horst ~

I wanted to touch base with you quickly to see if you have decided whether or not it would be okay for us to remove a small section of the officer's shirt to retain for further analysis should the test for lead come back negative. To refresh your memory, doing this would not impede the test for lead that Tom Morgan would be conducting on the area of interest. Once Tom does the test for lead no further testing can be done. By removing a small section of the shirt prior to the lead testing, it can be retained for further analysis if the area of interest turns out NOT to be lead.

Additionally, to give you a recap of what has been done so far:

1) All three firearms have been test fired at distances of contact through 72 inches.
2) A thorough macroscopic exam, microscopic exam, and chemical analysis has been conducted on the down jacket.
3) A thorough macroscopic exam and microscopic exam has been conducted on the officer's shirt and pants.
4) Preliminary observations have been conducted on the remaining items of clothing (vest, thermal shirt etc.)
5) Preliminary trajectory examination has been conducted on the Ruger.

As soon as we hear from you we will proceed with the chemical processing (and possible further analysis) on the officer's shirt.

I also wanted to inform you that we will be exceeding the 10-12 hours of examination time originally quoted due to the necessity of processing multiple areas on several garments, the possibility of further examination on the officer's shirt, as well as the possibility of further test firing (depending on the result of the chemical analysis conducted on the officer's shirt). I would estimate an additional 6-10 hours all depending on where the analysis takes us. We can most certainly keep you informed along the way. I wanted to be sure that you

were aware of this and also that we have permission to continue with the analysis. We will of course work as quickly and efficiently as possible.

Feel free to email or call me with your responses! Thank you for your time!

Allison

Subject: RE: DNA Testing

Just following up on this. I think we are all on the same page re: the FBI doing this testing, but I wasn't sure if you've talked to them about it yet? Please let me know and we'll go from there. I'll notify Dinius once the process is confirmed.

From: Catlin, Jack [redacted]
Sent: Tuesday, November 24, 2015 9:45 AM
To: Spillman, Jason
Subject: DNA Testing

Jason, as you are aware we believe we recovered a spent .204 round from the crime scene in Adams County. This is the caliber of bullet that Jack Yantis was using. Before we sent the round and other evidence to the FBI lab, we had the ISP lab check the spent round for biological trace evidence. The ISP lab has informed us there was blood on the round and they have a very small sample to conduct a DNA test. The issue is the entire sample will be consumed when the DNA test is performed. The ISP lab generally requests a letter from defense attorneys authorizing such tests that consume all of the sample before they conduct such tests. However, in this case we have not charged anyone.

We need to know if the blood on the spent .204 round is from the Bull or some other source. I do not know if the lab will allow the AG's Office to authorize such a test or if we want to contact the officer's attorney and have him authorize the test. Due to the fact neither of the two officers had any wounds the only blood that could be on the bullet would be the Bull's blood or Jack Yantis' own blood, but we need to know the results.

Hey Mark,
Got a couple requests for you.

Could you update your report in the incident tab/incident type to be OFFICR ICI/Status to be INV.

Also when you spoke to Roland and Wood was your audio running?
I will need you to make and enter a copy of the audio/video into evidence along with 2 additional copies to me.

Call me at [redacted] if you have any questions.
Thanks for the attention and help on this,

Jason

Allison,
I discussed it with my supervisors and decided I would like to provide you with additional info that may be useful to Tom. Along with the coroner's report I will send the disc of photos from the autopsy and a disc of the scene which contain photos of Mr. Yantis body.
I do not want to send those out via email so I will send them out fed ex or ups.

I will also discuss the issue of the fabric testing and get back to you.

STATE OF IDAHO, IN AND FOR THE COUNTY OF ADAMS

State of Idaho, Plaintiff, vs. **Jack Fred Yantis**, Defendant.	Case No. CR-02-3545*M Citation No. 920370 **REQUEST FOR DISCOVERY**

TO: THE PROSECUTING ATTORNEY OF ADAMS COUNTY

PLEASE TAKE NOTICE that the undersigned pursuant to Rule 16 of the Idaho Criminal Rules request discovery and inspection of the following information, evidence and materials:

1. Any material or information in your possession, custody or control or which thereafter comes into your possession, custody or control which tends to negate the guilt of defendant as to the offense charged or which would tend to reduce the punishment therefore.

2. Any relevant written or recorded statements made by the defendant, or copies thereof, within the possession, custody or control of the State, the existence which is known or available to the Prosecuting Attorney by exercise of due diligence.

3. Any substance of any relevant, oral statement made by the defendant whether before or after arrest to a peace officer, Prosecuting Attorney, or his agent.

4. Any written or recorded statement of a co-defendant and the substance of any oral statement made by a co-defendant whether before or after arrest in response to interrogation by any person know by the co-defendant to be a peace officer or agent of

the Prosecuting Attorney.

5. A copy of the defendant's prior criminal record, if any as is now or may later become available to the Prosecuting Attorney.

6. Any books, papers, documents, photographs, tangible objects, buildings, or places, or copies or portions thereof, which are in the possession, custody or control of the Prosecuting Attorney and which are material to the preparation of the defendant, or intended for use by the Prosecutor as evidence at trial, or obtained from or belonging to the defendant.

7. Any results or reports of physical or mental examines, and the scientific tests or experiments, made in connection with this case, or copies thereof, within the possession, custody or control of the Prosecuting Attorney, the existence of which is known or is available to the Prosecuting Attorney by the exercise of due diligence.

8. A written list of names and addresses of all persons having knowledge of relevant facts who may be called by the State as witnesses at the trial, together with any record of prior felony convictions of any person which is within the knowledge of the Prosecuting Attorney.

9. The statements made by the prosecution witnesses or prospective prosecution witnesses to the Prosecuting Attorney or his agents or to any official involved in the investigatory process of this case.

10. Reports and memoranda in your possession which were made by a police officer or investigator in connection with the investigation or prosecution of this case.

The undersigned further requests permission to inspect and copy said information, evidence and materials on May 29, 2002, at 9:30 a.m., or alternatively request that you furnish the undersigned with copies of the above requested information, evidence and materials on or before the above stated time.

CERTIFICATE OF SERVICE

I hereby certify that on May 15, 2002, a true and correct copy of this document was served on the Adams County Prosecutor by fax..

SUSPENSION ADVISORY

1. I have reasonable grounds to believe that you were driving or were in physical control of a motor vehicle while under the influence of alcohol, drugs, or other intoxicating substances.
2. You are required by law to take one or more evidentiary tests to determine the concentration of alcohol or the presence of drugs or other intoxicating substances in your body. After submitting to the test(s) you may, when practical, at your own expense, have additional tests made by a person of your own choosing.
3. You do not have the right to talk to a lawyer before taking any evidentiary tests to determine the alcohol concentration or presence of drugs or other intoxicating substances in your body.
4. If you refuse to take or complete any of the offered tests pursuant to Section 18-8002, Idaho Code:
   A. Your Idaho driver's license or permit will be seized if you have it in your possession, and if it is current and valid you will be issued a temporary permit. Temporary permits cannot be issued to drivers operating commercial vehicles.
   B. You have a right to submit a written request within seven (7) days to the Magistrate Court of Adams County for a hearing to show cause why you refused to submit to or complete evidentiary testing and why your driver's license should not be suspended.
   C. If you do not request a hearing or do not prevail at the hearing, your license will be suspended by the court with absolutely no driving privileges for 180 days if this is your first refusal; if this is not your first refusal in the last five years, your license will be suspended with absolutely no driving privileges for one (1) year. **THIS SUSPENSION FOR REFUSAL OF EVIDENTIARY TESTING IS SEPARATE FROM ANY OTHER SUSPENSION ORDERED BY THE COURT.**
5. If you take and fail the evidentiary test(s) pursuant to Section 18-8002A, Idaho Code:
   A. Your Idaho driver's license or permit will be seized if you have it in your possession, and if it is current and valid you will be issued a temporary permit. Temporary permits cannot be issued to drivers operating commercial vehicles. Non-resident licenses will not be seized and shall be valid in Idaho for thirty (30) days from the service of this notce of suspension, provided the license is valid in the issuing state.
   B. I will serve you with this *NOTICE OF SUSPENSION* that becomes effective thirty days from the date of service on this *NOTICE*, suspending your driver's license or privileges. If this is your first failure of an evidentiary test your driver's license or driving privileges will be suspended for ninety (90) days, with absolutely no driving privileges during the first thirty (30) days. You may request restricted driving privileges for the remaining sixty (60) days of the suspension. If this is not your first failure of an evidentiary test within the last five (5) years, your driver's license or driving privileges will be suspended for one (1) year with absolutely no driving privileges of any kind during that period. **THIS SUSPENSION FOR FAILURE OF THE EVIDENTIARY TEST(S) IS SEPARATE FROM ANY OTHER SUSPENSION ORDERED BY THE COURT.**
   C. You have the right to an administrative hearing on the suspension before the **IDAHO TRANSPORTATION DEPARTMENT** to show cause why you failed the evidentiary test and why your driver's license should not be suspended. The request must be made in writing and be received by the department within seven (7) calendar days from the date of service of this *NOTICE OF SUSPENSION*. You also have the right to judicial review of the Hearing Officer's decision.

— PLEASE REFER TO THE BACK OF THIS SUSPENSION NOTICE FOR MORE INFORMATION —

NOTICE OF SUSPENSION: If you have failed the evidentiary test(s), your driving privileges are hereby suspended per #5 above, commencing thirty (30) days from the date of service of this notice. Date of Service:

NOTE: If a blood or urine test was administered, the department may serve a *Notice of Suspension* upon receipt of the test results.

ARRAIGNMENT MINUTE ORDER

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF ADAMS MAGISTRATE DIVISION

STATEMENT OF DEFENDANT'S RIGHTS IN MISDEMEANOR CASES

1. You have the right to remain silent; any statement you make can be used against you. You cannot be compelled to incriminate yourself.

2. You have the right to bail. The amount and type of bail or release on your own recognizance is determined by the judge after considering factors provided by law.

3. You have the right to have an attorney represent you at all stages of these proceedings; if you are unable to afford counsel, and the Court determines that you may be subject to a jail sentence if convicted, you may apply to the Court for the appointment of an attorney to represent you at public expense.

4. You have the right to a jury trial, or you may waive jury and have the matter tried before the Court. At the trial the prosecution has to prove your guilt beyond a reasonable doubt. Any guilty verdict by a jury must be unanimous.

5. You have the right to confront or ask questions of any witness who testifies against you; and to compel the attendance of witnesses on your own behalf without expense to you.

6. You may enter a plea of guilty or not guilty at this time or request a continuance in order to consult your attorney as to the plea.

7. If you plead **GUILTY**, you waive or give up all of the above rights and you waive or give up any defenses you may have to the complaint filed against you.

8. You have the right to appeal any conviction or sentence to the District Court. The appeal must be filed within forty-two (42) days after the judgment of conviction is entered.

9. If you plead **NOT GUILTY**, the Court will set a trial date and you or your attorney will be notified of that date.

10. If you plead **GUILTY**, the Court will ordinarily sentence you immediately unless you request a delay. At the sentencing you will be given the opportunity to make a statement by way of explanation or mitigation.

11. The maximum penalty for a criminal misdemeanor is a fine up to three hundred dollars ($300) and up to six (6) months in jail. There are some exceptions, and if you are subject to a greater penalty, the Court will advise you.

12. If you plead guilty or are found guilty of a traffic offense, a record of the conviction will be sent to the Department of Transportation and becomes a part of your driving record. There is a traffic violation point system and the accumulation of points may lead to a suspension of your driving privileges if the Court has not already done so.

13. In addition to any fine imposed by the Court upon a conviction, there are court costs.

I acknowledge that I have read this statement and fully understand its contents.

DATED This 19th day of June, 1997.

Jack Yanko
Defendant

Subject: RE: reports from 1997 Yantis arrest?

We are completing backgrounds on Yantis, along with the two involved officers. The only information we have reference the 1997 resisting charge is from the court file. In 1997, ISP Patrol did not archive such information, the only types of cases that were archived were fatal crash investigations.

Subject: reports from 1997 Yantis arrest?

Today's Statesman article references the 1997 case against Yantis for resisting and obstructing, and I believe the article said the court file was "short on specifics." Obviously, the lack of specific factual information in a court file is pretty common. However, I assume there were reports generated (by the Adams County SO?) re: the incident, and I'm wondering if you have obtained or are attempting to obtain those reports (if they even still exist?)?

Just thinking out loud. Thanks, Jason

Subject: scale diagram

Quinn,
I need you to finalize the scale diagram by pulling a supplement in M15000140 that you completed it.
If you have any questions about what to include in the report please contact me.
Hate to be a pain but I need this done asap

Hello Det. Horst ~

I was actually just going to email you. We finished the final report and I have attached it here. Thank you so much for your patience as it was definitely an involved process to get everything completed.

Tom reviewed a few pieces of evidence once more on Thursday/Friday so we didn't get the evidence sent out. We will be sending it out along with a signed copy of the report today.

Please let me know if you have any questions or concerns.

Thank you kindly,

Allison

Jason

As we discussed last week, the FBI is involved in the Yantis shooting investigation. Special Agent Rod Draper (ccd) is working with ISP on the investigation.

Rod and I need to access investigative materials. ISP will not release those materials to us without your permission.

Can you please authorize ISP to release those materials to the FBI and my office?

Thanks.

Jason and Pam,

Looping us all in to share what I'm tracking.

I've gotten through all the files and documents provided thus far, thank you very much. Hopefully this is the "catch all" for either clarity or omissions:

S-55, Rise Smith audio has no content
S-30, Felty audio won't play
S-16, Courtney Stanford has no audio in it HOWEVER it is in S-41 so we have it
S-34, Process of Wood/Roland gear has no photos, HOWEVER they are in S-25
S-36 of Volume 1, ISP Walker Photos were on volume #4 you provided and called S-36

S-41, Shawn Stanford, no audio files for his interview but contains audio for Courtney Staford S-16
S-48, Thumb drive files are in S-51

v/r,
Rod

Hey Rod. One of the audio files won't play. It's the type of format that you can copy from a disk to hard drive. It has to be converted to .wmv format. Here's the path to the audio that was on the disk. Can you have ISP burn just the audio again. They might have to convert it first to wav format. Let me know if they have any questions, you can have them contact me directly.

Have a great weekend.

Jackson, WY 83001

RE: Death of Jack F. Yantis and bull, November 1, 2015

Dear Mr. Fleck:

The Idaho Department of Fish and Game asked me to respond to your request for copies of:

> All video or audio tapes, cell phone data, photographs, biological materials, test results, laboratory results, reports, statements and associated notes, drafts and recordings, research statistics, forensic analysis, tables, guidelines, directions and/or comments including inter and intra departmental memoranda, enhancements, transcriptions, reconstructions/recreations, necropsy specimens and reports, crime scene reports and supplements, witness statements, "secret" files, conclusions and recommendations, and any and all other information or evidence seized, produced or delivered to you, including chain of custody documentation, related to the death of Jack Yantis or the cow bull, and any and all associated electronic files and electronically stored information.

The Department is denying your request for records as it relates to reports or portions of reports involving active law enforcement investigations, pursuant to Idaho Code 74-105(1) and 74-124(1). Production of these records may interfere with enforcement proceedings, deprive a person of a right to a fair trial or an impartial adjudication in the event prosecution occurs, and constitute an unwarranted invasion of personal privacy.

Pursuant to Idaho Code 74-103(4), a Deputy Attorney General representing the Department of Fish and Game has reviewed your request.

You have the right to appeal this denial of your public records request pursuant to Idaho Code Section 74-103(4) within one hundred eighty (180) calendar days of the date of this letter.

Sincerely,

W. Dallas Burkhalter
Deputy Attorney General

Subject: reports from 1997 Yantis arrest?

Today's Statesman article references the 1997 case against Yantis for resisting and obstructing, and I believe the article said the court file was "short on specifics." Obviously, the lack of specific factual information in a court file is pretty common. However, I assume there were reports generated (by the Adams County SO?) re: the incident, and I'm wondering if you have obtained or are attempting to obtain those reports (if they even still exist?)?

Just thinking out loud. Thanks, Jason

Here is the list (so you can babysit me)

Photos for sup 36
Sup 56 report and digital copy of scale diagram

Coroner's report
FBI report
Asphalt and Gun lab report

I will also pull a new supplement with a report on a statement made to me by Wood on the day of the walkthrough.

Thanks,
Jason

Jason

I just got an email from Dr. Drew and he said the final necropsy report should be signed and through their system this week, and he would send it as soon as it is signed.

Jason,

There was no disc in the device. There is something recorded, if I had a formatted disc I could burn it. Brian is out of town so he told me where his key fob was. My cell is [redacted].
