Dear Sir or Madam:

On behalf of Lewis and Clark Community College ("Lewis and Clark"), whose office is located at 5800 Godfrey Road, Godfrey IL 62035, this letter provides notice of a recent data security incident pursuant to Idaho Code § 28-51-104 *et seq.*

In November 2021, Lewis and Clark experienced a ransomware incident that impacted a limited number of devices and systems. Upon becoming aware of the incident, Lewis and Clark immediately investigated the matter and took measures to address and contain the incident, including changing passwords and retaining national privacy and security experts. At the conclusion of the investigation, Lewis and Clark was able to determine the extent of the data affected by the incident, the number of affected individuals, and the identity of individuals in March 2022.

Lewis and Clark has identified one (1) Idaho resident who may have been affected by the security incident. On April 25, 2022, letters were mailed to potentially affected individuals for whom Lewis and Clark had complete addresses, including the Idaho resident.

The personal information identified as subject to the incident and affecting Idaho residents is limited to name, address, and Social Security Number. Lewis and Clark has provided the potentially affected individuals, including the Idaho residents, with triple bureau credit monitoring and cyber monitoring services at no charge for twelve (12) months from the date of enrollment.

Please feel free to contact me with any questions at 716-898-2102 or dgreene@beckage.com.

Sincerely,

BECKAGE
