Highland School District Students, Families, and Staff

Highland School shares the same PowerSchool student information system as the majority of Idaho school districts. PowerSchool was involved in a nationwide cyber data breach. Highland was among those notified as affected in the unauthorized data disclosure. We are required to notify in a timely manner affected individuals, students and families.

PowerSchool is working on assessing the depth of the breach with individual subscribers. We will keep our families updated should concerns with this cybersecurity incident arise.

Never hesitate to contact me with questions.

Thank you for your patience.

Tana Kellogg

Superintendent
Highland School District
