RE: PowerSchool SIS Cybersecurity Incident

Dear Attorney General Labrador:

PowerSchool recently informed our leadership team that they experienced a cybersecurity incident involving unauthorized access to certain PowerSchool SIS customer data. We were able to pull our audit logs today and have reviewed them and have verified the data taken primarily includes data from the Student and Teacher tables, which would contain some PII.

We are taking steps to inform our parents and staff and have notified the Idaho State Board of Education, Idaho Department of Education and ICRMP.

We do not store any financial information, social security numbers etc. in our SIS System. We will continue to monitor updates from PowerSchool.

Let us know if you have any questions.

Sincerely,

Tony Bonuccelli  
Administrator
