Office of Attorney General for the State of Idaho :

We share the same PowerSchool student information system as the majority of Idaho school districts. PowerSchool was involved in a nationwide cyber data breach. Culdesac was among those notified as affected in the unauthorized data disclosure. We are required to notify in a timely manner affected individuals, students and families.

PowerSchool is working on assessing the depth of the breach with individual subscribers. We will keep our families updated should concerns with this cybersecurity incident arise.

Please contact me by phone (208)843-5413 or by email at henryf@sd342.org with any questions or concerns.

Sincerely,

**Henry Filipponi
