RE: Notice of Disclosure of Personally Identifiable Information

Dear Sir:

In accordance with Idaho Code §33-133, the purpose of this letter is to notify you of an unauthorized data disclosure that occurred in the Hansen School District No. 415 on or around December 20, 2024. An unauthorized data disclosure is the intentional or unintentional release of personally identifiable information (“PII”) to an unauthorized or untrusted environment. PowerSchool, our student information system, has confirmed it suffered a cybersecurity incident that allowed a threat to steal the personal information of students and teachers from school districts using its PowerSchool SIS platform. Our IT support has confirmed that our student records were breached. Email and text messages were sent to all students, parents, and staff members this morning notifying them of the breach.

The District holds its responsibility to protect student data and confidential information in the highest regard. As we continue to follow up on this matter, we will review our existing policies and work with our staff to ensure that the procedures we have in place properly protect confidential student information as required by Idaho and federal law.

Sincerely,

Angie Lakey-Campbell  
Superintendent  
Hansen School District
