Re: Notice of Data Security Incident

Dear Attorney General Labrador:

This notice is provided on behalf of my client, the City of Hailey (the "City"). On January 30, 2025, the City discovered suspicious activity on an employee email account. The City immediately began an investigation, with the assistance of legal counsel and a nationally-recognized cyber security and digital forensics firm to investigate the scope of the incident.

On Friday, February 14, 2025, the City determined that the employee email account was subject to a breach of the security of the system, as defined in Idaho Code § 28-51-104(2). The City is currently working with legal counsel and the digital forensics firm to complete the review of the contents of the impacted email box to determine what information may have been affected and to whom that information relates, so that it can provide proper notice. To date, the affected data included Idaho residents' names, Social Security numbers, and driver's license numbers. The City is also notifying the ITS Chief Information Security Officer and the Office of Risk Management regarding this incident and will continue to provide significant updates as the investigation.

Sincerely,

/s/ Matthew H. Meade, Esq.
